The ambitious project aims to build, in the San Siro area, an urban district, modern, sustainable and accessible, which revolves around an innovative sports facility of the highest international standards.

In particular, the project involves the construction of a new stadium to replace the existing San Siro, which would be partially demolished and replaced by a sports and leisure district, with green areas, parks, new commercial and office buildings, new road networks and related infrastructure.

On September 26, 2019, Inter and A.C. Milan presented two potential projects for the new stadium next to the original stadium, provisionally called New Stadium for Milan, designed by Populous and Manica/Sportium respectively.

On October 28, 2019, the City of Milan recognized and declared the project of public interest with the City Council Resolution n. 1905 of November 8, 2019, while making the approval of the project subject to certain changes and conditions. On May 7, 2020 Inter and A.C. Milan S.p.A., announced that the concept presented by the Populous studio, known as "la Cattedrale", turned out to be the project chosen by the two clubs.

By the end of September 2022, after the preparation phase in July and August 2022, the public debate on the project for the construction of the new stadium, jointly proposed by the Parent Company and A.C. Milan S.p.A., will begin, with the conclusion expected in October 2022, to finalise the details to define the terms and development of the design of the new As of today, however, there are no commitments made by the Group F.C. Internazionale Milano with regard to this project.

Youth Programme Activities

The youth sector has recorded the usual excellent and satisfactory sports results; all the teams participating in their respective championships have achieved important successes and important placements. In particular, in their respective category championships, the Primavera Team won the championship, the U18 Team reached the semi-final while the U17 Team reached the final being defeated by Bologna.

All the technical staff employed by the club have once again confirmed they are among the best in the country, contributing their profuse commitment and professionalism to the constant development of the entire youth programme.

Financial Fair Play

F.C. Internazionale Milano, as all the other clubs qualified to European competitions, has to respect the Financial Fair Play rules (hereafter, alternatively, "FFP"), the monitoring rules and criteria introduced by UEFA of which the main financial criteria are based on the going concern assumption, on the achievement of a balanced budget and on the absence of overdue debits to other clubs, registered players and social or tax authorities. Due to the Covid-19 pandemic, during this emergency phase the UEFA Executive Committee approved the following amendments to the UEFA Club Licensing and Financial Fair Play Regulations, which will come into force as of the fiscal years ended June 30, 2020:

- the evaluation of the 2020 fiscal year has been postponed by one season and is evaluated together with the 2021 fiscal year as a single period;

- the monitoring period 2020/2021 has been shortened and covers only two reporting periods, i.e. only the fiscal years ending in 2018 and 2019;

- the monitoring period for 2021/2022 has been extended and covers four reporting periods, i.e. exercises ending in 2018, 2019, 2020 and 2021;

- the negative impact of the pandemic is mitigated by averaging the combined deficit of the years 2020 and 2021 allowing for other specific adjustments.

With reference to the general forecasts of the Financial Fair Play, during October 2021, the F.C. Internazionale Milano Group submitted to UEFA the calculations related to the break-even requirement of the Financial Fair Play as at June 30, 2021. On December 17, 2021, UEFA informed the F.C. Internazionale Milano Group that the review carried out by the Club Financial Control Body ("CFCB") First Chamber on the basis of the information provided showed a significant aggregate deficit for the monitoring period covering the reporting periods 2018, 2019, 2020 and 2021, and consequently requested further information from the F.C. Internazionale Milano Group, including forecast data relating to break-even for the fiscal year ending June 30, 2022. Following the information provided by the Group, on February 14 and 16, 2022, UEFA respectively: (i) communicated the decision of the CFCB First Chamber to initiate proceedings against the F.C. Group. Internazionale Milano, inviting the representatives of the same to a meeting at UEFA's headquarters in Nyon (Switzerland) on March 11, 2022; and (ii) requested additional information, including, the update of the break-even information expected for the fiscal year ending June 30, 2022, as a result of the transfers of the last winter campaign 2021/2022, the business plan covering the reporting periods 2023, 2024 and 2025, with the relevant underlying assumptions, as well as the concrete measures to improve the economic and financial situation of Gruppo F. C. Internazionale Milano Group.

Following further discussions, a Settlement Agreement was signed between the parties on August 23, 2022. The agreement will be applied not only for the football season ending on June 30, 2022, but also for the following seasons up to and including the 2026/2027 season and provides for the "Football Earnings" indicator, i.e. the operating result from the consolidated financial statements adjusted by certain components (e.g. costs incurred for the youth sector, women's football, etc.). The agreement provides for a certain and unconditional penalty of Euro 4 million, recorded in the financial statements for the fiscal year ended on June 30, 2022 in the item "Provision for risks and charges", and a further potential penalty of a maximum of Euro 22 million suspended depending on the observance of "Football Earnings" target values in the years in which the agreement is in force. These potential penalties will be withheld by UEFA to offset the premiums recognised for the First Team's participation in European competitions.

In light of the most recent economic-financial projections elaborated by the Directors for the 2023/2027 time horizon, updated taking into account events that occurred after the date on which the forecasts were shared with UEFA for the purposes of signing the Settlement Agreement, the Group has therefore proceeded to set aside the additional amount, equal to Euro 4.8 million, in the item "Provision for risks and charges", as the best estimate of the potential penalty due as a result of the Settlement Agreement stipulated.

The forecasts on which the value of the sanction was determined are characterised by inherent uncertainty as they are influenced by factors beyond Management's control and could therefore be realised to a different extent than expected, leading to adjustments to the value of the sanctions allocated to date in the consolidated financial statements.

From a sports point of view, moreover, the Group F.C. Internazionale, already for the 2022/2023 and 2023/2024 fiscal years, will be subject to restrictions in terms of limitations on the registration of new players in the UEFA lists, in addition to potential future restrictions for the following seasons in the event of non-compliance with "Football Earnings" target values.

Other assets

Season ticket campaign, website and thematic channel

Due to the Covid-19 pandemic, the Authorities have planned to play this season's matches behind closed doors or with access limited to 1.000 spectators; therefore, the season ticket campaign for the 2021/2022 football season has not taken place.

With reference the website of the Company, it shows once again the devotion of our fans to the club's colours making it one of the most visited club website in Italy and Europe.

Shareholders' meeting

The Parent Company ordinary shareholders' meeting, held on October 28, 2021, approved the financial statements for the year ended June 30, 2021, which showed a loss of 214,412,630 thousand, and resolved to defer the settlement of this loss until the fifth fiscal year following the one in progress as of December 31, 2020 (or, for the Parent Company, the fiscal year ending June 30, 2026), as provided for in article 1, paragraph 266, of Law no. 178 of December 30, 2020. For more information on this, please refer to the Explanatory Notes.

Going concern

The present consolidated financial statements is prepared according to the principle of going concern in accordance with the considerations set out below and events described below.

During the fiscal year, the club recorded a significant loss of Euro 140.1 million, an improvement on the loss made in the 2021/2022 season (Euro 245.6 million), thanks both to capital gains from the sale of certain players and to the easing of restrictive measures against the Covid-19 pandemic, which, although it still had a negative impact on the 2021/2022 season, allowed a gradual return of spectators to the stadium and the achievement of ticket revenues that had been zero in the previous season.

As a result of the loss realised during the fiscal year, from an equity point of view, the net equity of the Parent Company was negative for Euro 36.3 million as of June 30, 2022. In this regard, it should be noted that the Company's Shareholders' Meeting of October 28, 2021 had approved the financial statements for the fiscal year ended on June 30, 2021 with a final loss of Euro 214,412,630, resolving to postpone the replenishment of this loss by the fifth fiscal year

following the one in progress as of December 31, 2020 (i.e., for the Parent Company, to the fiscal year closing on June 30, 2026), as provided for in Article 1, paragraph 266, of Law No. 178 of December 30, 2020, allowing the Parent Company's equity to comply with the minimum capitalisation limits provided for in Articles 2446 and 2447 of the Code. It should also be noted that Decree Milleproroghe no. 228/2021 (effective as of December 31, 2021) converted with amendments into Law no. 15 25 February 25, 2022, in Article 3, paragraph 1-ter (extension of terms on economic and financial matters) extended to losses that emerged in the fiscal year underway as of December 31, 2021 the "sterilisation" discipline originally provided for by Decree-Law no. 23 of April 8, 2020, converted with amendments by Law no. 40, thus recognising the possibility for the Shareholders' Meeting to postpone the replenishment of this loss until the fifth fiscal year following the one in progress as at December 31, 2021 (i.e., for the Parent Company, the fiscal year ending June 30, 2027). When approving the annual financial statements for the 2021/2022 season, the Parent Company intends to use this option to defer the immediate adoption of the obligations set forth in Articles 2446 and 2447 of the Italian Civil Code, deferring the loss of Euro 127,308,418 for the fiscal year ended on June 30, 2022 in accordance with the aforementioned legal provisions and thus operating with negative shareholders' equity to which losses that can be written off in five years amounting to approximately Euro 342 million will contribute.

From a financial point of view, the transfer during the 2021/2022 season of players at significant values has more than offset the cash absorption of the core business as a result of the losses in the Income Statement and, together with the refinancing of the financial debt, has not determined the need for the Leading Shareholder to contribute additional financial resources during the fiscal year.

More specifically, it should be noted that on February 9, 2022, the subsidiary Inter Media and Communication S.p.A. (hereinafter also referred to as "Inter Media") completed the issue of a guaranteed, non-convertible, non-subordinated senior Bond Loan for a total principal amount of Euro 415 million, with an annual interest rate of 6.75% and maturity on February 9, 2027, mainly aimed at the early refinancing of its financial debt, whose maturity date was set for December 31, 2022. For more information on the refinancing transaction, please refer to the section "Other Information - Debt refinancing".

In addition, in order to contain financial outlays, in July 2022 the Parent Company, through Generali Italia S.p.A., extended the insurance guarantee policy by a further Euro 19.1 million, reaching the amount of Euro 45 million to guarantee the debit balances of the Group's transfer account in favour of the Lega Nazionale Professionisti Serie A, as provided for by the regulations issued by the FIGC on the subject of players' registration and transfers (in particular, by the Official Notice of the FIGC no. 251/A, published on May 19, 2022).

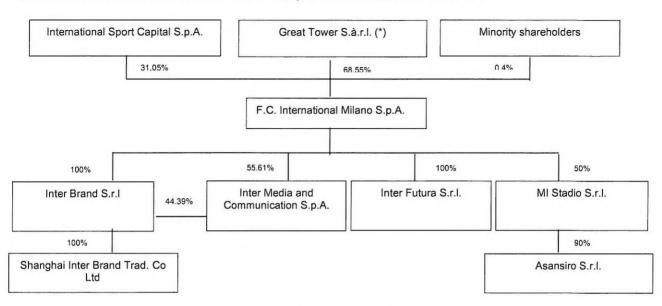

In addition, during the fiscal year, installments were paid and renegotiated for certain debt items, in particular of a fiscal nature, in accordance with the regulations granted by the various decrees supporting companies in the context of the crisis caused by the Covid-19 pandemic.

As a result of the above, the Group had cash and cash equivalents of Euro 139.2 million at June 30, 2022.

In this context, despite the fact that forecasts show, in the foreseeable future, the emergence of losses and consequent cash absorption, especially with reference to ordinary operations, characterised by high operating and financial cash requirements, the Directors have prepared these financial statements on a going concern basis, considering both the financial resources available to the Company and the contribution of additional financial resources expected from the Leading Shareholder (Suning), through Grand Tower S. à r.l., which is the direct parent company of the Group and with which adequate liquidity is available, and which has already expressed its formal commitment to provide financial support to the Parent Company and the Group for at least twelve months from the date of approval of these financial statements or, if a change of control of the Parent Company occurs before twelve months, until the date on which control of the Company is maintained.

It should be noted, however, that the Group's activities are closely linked to the sporting performance of the First Team and the regular running of the Serie A Championship and the European competitions in which the First Team takes part, and could therefore be affected by further potential impacts, which are not foreseeable at present, in relation to a revamping of the Covid-19 pandemic, which, together with the climate of general instability also connected to the conflict in Ukraine, as well as the inflationary context, rising interest rates and general volatility, could in turn influence the activities and results of the Parent Company and the Group in a worse way than what is currently expected. With reference to the conflict between Russia and Ukraine, where the Group do not have a presence, which broke out in February 2022, at the time of preparing these financial statements the Directors do not expect any significant direct effect, as also confirmed by the season ticket campaign and stadium attendance. The Parent Company and the Group are, moreover, active in applying the guidelines and directives of the European Union, in order to comply with sanctions and safeguard the operation of its business and the safety of its operators.

The Group Structure The structure of the F.C. Internazionale Milano Group as of June 30, 2022 is as follows:

The company Inter Brand China Co., Ltd. in liquidation, an indirect subsidiary of the Parent Company through Inter Brand S.r.I., was not included in the corporate organisation chart set forth above because it no longer represents a long-lasting investment for the Group. The above company, together with Shanghai Inter Brand Trad. Co Ltd. (that will be liquidate in the next year) has not been considered, since it currently does not have globally significant values in accordance with Article 28 of Legislative Decree 127/91.

Analysis of the economic results of fiscal year ended June 30, 2022

The consolidated financial statements end with a loss of Euro 140,056 thousand, with revenues and financial income for the fiscal year equal to Euro 441,310 thousand and costs, financial expenses and impairment of assets equal to Euro 577,913 thousand, in addition to negative tax of Euro 3,454 thousand.

Before proceeding to the analysis of the individual revenue and cost items, for the sake of clarity it should be noted that, following the suspension of competitive activities, which took place in March 2020, and the subsequent resumption of the same in June 2020 with the conclusion of the 2019/2020 football season on August 31, 2020, the fiscal year ended on June 30, 2021 was characterised by a zero balance in ticketing revenues and season ticket revenues for home matches, following their being played behind closed doors or with access limited to 1.000 spectators, due to the restrictive measures imposed by the Federal Institutions and Authorities due to the continuation of the Covid-19 pandemic. However, this zeroing was offset by the recognition of revenues from TV rights and sponsorships, previously deferred to June 30, 2020 and recognised, following the postponement and conclusion of both national and international competitions for the 2019/2020 football season, in the fiscal year ended on June 30, 2021, together with a portion of the costs of FIGC registered personnel. This postponement therefore affects the comparability of certain revenue and cost items of the fiscal year ended on June 30, 2022 with the previous fiscal year. In addition, with reference to the cost of FIGC registered personnel of the First Team, in the fiscal year ended on June 30, 2021, the cost of FIGC registered personnel of the First Team also included part of the cost relative to the 2019/2020 season, for Euro 18,120 thousand, deferred to June 30, 2020, following the spread of the Covid-19 pandemic in February 2020 and the concomitant restrictive measures implemented by Institutions and Federal Authorities, aimed at containing it, including the suspension of competitive activities, which took place in March 2020, and the subsequent resumption of the same, which took place in June 2020, with the end of the 2019/2020 football season on August 31, 2020.

The breakdown of Production Value for the fiscal year, compared to the same period of the previous fiscal year, was as follows:

Specifically:

- "Revenues from home matches", "Revenues from away matches" and "Season Tickets", highlight the effect of the reopening of stadiums to the public for the 2021/2022 football season, albeit with a still limited capacity and with strict restrictions imposed by Institutions and Federal Authorities for participation in such events, including the possession of the "green-pass", the use of masks and compliance with social distancing measures inside the stadiums. Indeed, it should be recalled that the previous 2020/2021 football season was entirely played behind closed doors or with limited access up to a maximum limit of 1,000 spectators per match;
- the item "Other revenues" mainly includes revenues from sponsorships and records a significant decrease mainly due to (i) the significant decrease in revenues from Regional Sponsorship, following the termination of revenues from the iMedia contract, terminated in advance at June 30, 2021, as well as the reduction in the fees related to the Naming Rights contract, (ii) the reduction in revenues from the Rai/Infront Archive, following the natural termination of the contract with Infront Italy S.r.I. on June 30, 2021, which provided for annual fees of Euro 10 million for the marketing of the television archive, training images, interviews, press conferences and media packages, and the simultaneous stipulation for the 2021/2022, 2022/2023 and 2023/2024 football seasons of a new contract for the licensing of archive images and access, filming and broadcasting rights, excluding certain territories (Italy, Vatican City, San Marino, the United States, the Middle East and North Africa) for a total annual amount of Euro 1,250 thousand for each of the aforementioned football seasons. This reduction was partially offset by the agreement entered into with Dazn Limited, a global broadcaster in the live streaming sports market, for the 2021/2022, 2022/2023 and 2023/2024 football seasons, in relation to the digitalisation and marketing in certain territories (Italy, Vatican City and San Marino), of archive content of matches played by the First Team (men's and women's) of Serie A and Inter Tv, for an annual fee of Euro 5 million, and (iii) the reduction, for Euro 2,988 thousand, in revenues from Inter Tv, mainly due to the natural expiration on June 30, 2021 - and the simultaneous non-renewal - of the contract for the concession of broadcasting rights of the Inter Tv thematic channel in China with Great Mercury Limited;
- the change in inventories of work-in-progress, semi-finished and finished products, positive for Euro 281,000, refers to inventory movements related to products intended for sale through the new e-commerce platform launched in July 2022;
- capitalised youth costs amounted to Euro 8,900 thousand, in line with the previous comparative period. For further details, please refer to the section " Capitalization of Youth Programme costs" of the Explanatory Notes;
- grants and Contributions of Euro 16,337 thousand include contributions which will be paid by the Lega di Serie A

- revenues from "Sponsorships" mainly refer to fixed and variable fees paid by Socios.com (Official Sponsor) which replaced Pirelli from the 2021/2022 football season by Nike (Technical Sponsor), by Lenovo (Jersey Sponsor back) and Zytara (Jersey Sponsor sleeves). These fees also include performance bonuses, if any, accrued in the fiscal year ended on June 30, 2022 in relation to the sports results achieved by the Parent Company's First Team. With reference to the comparative fiscal year ended on June 30, 2021, on the other hand, this amount included bonuses for qualifying for the 2019/2020 and 2020/2021 UEFA Champions League, for the sporting results achieved in the final phase of the 2019/2020 UEFA Europa League, following the conclusion of the 2019/2020 football season on August 31, 2020, as well as for winning the 2020/2021 Serie A championship;
- "Advertising" mainly include revenues from promotional-advertising activities in corporate hospitality season tickets and show a significant increase compared to the comparative fiscal year in the amount of Euro 4,032 thousand, an effect deriving from the reopening of stadiums to the public for the 2021/2022 football season, as better described above in the commentary on the section match and season ticket revenues;
- "Commercial income and royalties", amounting to Euro 6,472 thousand, refer to revenues related to merchandising and licensing activities, activities that as of November 1, 2019 have been internalised and managed directly by the Parent Company;
- income from the sale of television rights of home matches of the Serie A, equal to Euro 84,239 thousand, showed a decrease compared to the previous fiscal year equal to Euro 41,174 thousand, manily attributable to the recognition of part of the income from television rights of the 2019/2020 football season in the 2020/2021 fiscal year, for Euro 24,913 thousand. It should be remembered in fact that, following the spread of the Covid-19 pandemic in February 2020 and the concomitant restrictive measures put in place by Institutions and Federal Authorities, aimed at containing it, the 2019/20 football season was first suspended in March 2020, and then proceeded with the continuation of the championship and competitive activities only from June 2020 until August 2020;
- television revenues from UEFA competitions, amounting to Euro 62,304 thousand at June 30, 2022, are substantially in line with those of the same previous comparative period, in relation to the recognition of part of the television rights revenues of the 2019/2020 football season in the 2020/2021 fiscal year, for Euro 15,856 thousand, similarly to what has been stated in the previous paragraph in relation to the item income from the licensing of broadcasting rights of Serie A championship matches; this effect is partially offset by the higher revenues of the 2021/2022 fiscal year related to the First Team reaching the round of 16th of the UEFA Champions League
- revenues from temporary loans of players is mainly related to players Lorenzo Pirola, Michele Di Gregorio and Valentino Lazaro;
- the "Gains from the sale of players' registration rights" amounting to Euro 105,232 thousand at June 30, 2022, mainly relate to the sale of the players Achraf Hakimi to Paris Saint Germain for a consideration of Euro 66.5 million (already net of the FIFA Solidarity Contribution due) and Romelu Lukaku to Chelsea for a consideration of Euro 113 million (already net of the FIFA Solidarity Contribution due);
- other income from player management, in the amount of Euro 2,469 thousand, are related (i) to Euro 1,849 thousand for bonus matured for the players Stefano Sensi, Achraf Hakimi, Matteo Politano, Lucien Agoumè and Michele Di Gregorio, (ii) for Euro 369 thousand in UEFA earnings linked to the participation 2021 in the respective National Teams during the European Football Championship of the First Team players in July 2021 and (iii) for Euro 251 thousand in solidarity contributions accrued as a result of transfers of players to international clubs;
- "Sundry revenues and income" of Euro 22,999 thousand mainly include (i) Euro 4,707 thousand relative to the distribution by the LNPA of compensation for damages following the settlement with the television broadcaster MediaPro, (ii) revenues from insurance reimbursements related to injuries suffered by First Team players for Euro 4,214 thousand, (iii) revenues from Inter Academies for Euro 897 thousand and (iv) revenues from services provided to affiliated companies for Euro 725 thousand. The item also includes contingent assets and non-existent liabilities for Euro 11,984 thousand, mainly related to (i) the release of provisions prudentially set aside in the previous fiscal year, for Euro 3,091 thousand, against two credit positions with LNPA and Sky Italia, with reference to the sixth and final instalment of TV rights for the 2019/2020 football season; (ii) the Group's contribution for the participation of registered football players of the First Team in Euro 2020, equal to Euro 1,960 thousand; (iii) the release of the provision made as of June 30, 2021 related to the management incentive plan ("Long Term Incentive"), which will not be paid as the targets included in the aforesaid plans were not reached, amounting to Euro 1,190 thousand; (iv) the release of IRPEF withholdings not paid following the application of the tax regime for so-called "impatriated" workers for Euro 1,168 thousand; (v) to the estimated prudential reduction in rental expenses, equal to Euro 870 thousand, of the Giuseppe Meazza Stadium for the 2019/2020

and 2020/2021 seasons owed by the Group; (vi) to the recognition of non-existence of liabilities towards iMedia for Euro 820 thousand following the contextual write-down of the receivable; and (vii) to the final balance of UEFA Champions League proceeds for the 2020/2021 season, equal to Euro 273 thousand.

The following is the composition of the production costs of the current fiscal year, compared with those of the previous fiscal year:

Production costs, amounting to Euro 527,912 thousand (Euro 568,782 thousand as at June 30, 2021) recorded an overall increase of Euro 40,870 thousand mainly due to the following effects:

- (i) the decrease in "Personnel costs" for Euro 13,144 thousand, mainly due to the fact that, as previously mentioned, in the fiscal year ended on June 30, 2021, the cost of registered personnel of the First Team also included part of the cost relating to the 2019/2020 season, for Euro 18,120 thousand, deferred to June 30, 2020, following the spread of the Covid-19 pandemic in February 2020 and the concomitant restrictive measures put in place by Institutions and Federal Authorities, aimed at containing it, including the suspension of competitive activity in March 2020 and its subsequent resumption in June 2020, with the end of the 2019/2020 football season on August 31, 2020;
- (ii) the decrease in "Amortization, depreciation and write-downs" for Euro 40,823 thousand, essentially due to lower amortisation calculated in the fiscal year, directly related to the reduction in the value of the First Team players' registration rights, as well as to the allocation of lower provisions for the write-down of specific receivables positions, compared to the same comparative period of the previous fiscal year. For further details, please refer to the comments in the Explanatory Notes in the paragraphs "Intangible fixed assets" and "Bad debt provision";
- (iii) a reduction in the costs set aside for provision for risks and charges, for Euro 8,431 thousand, mainly attributable to lower allocations made during the fiscal year ended on June 30, 2022, related to the recognition of the charge for unpaid IRPEF withholdings following the application of the tax regime for so-called "impatriate" workers pursuant to Article 16, paragraph 5-quater, Legislative Decree No. 147 of 14 September 2015, for employment income taxable from the 2020 tax period. For further details, please refer to what is set forth in the Explanatory Notes in the comment on the item "Provision for risks and charges";
- (iv) lower losses from the sale of players registrations, for Euro 1,991 thousand, directly related to the trend of player transfer markets occurred in the present fiscal year, as better commented in the Explanatory Notes.

These effects are partially offset by:

- by the increase in the items "Cost of raw materials, supplies and consumables" and "Other operating expenses" for Euro 10,665 thousand, mainly due to the effect of the relaxation of the restrictions imposed by the spread of the Covid-19 pandemic;
- (ii) the increase in the item "Costs for services" for € 12,686 thousand, mainly attributable to the item "Transfer market agent fees" as a result of the higher fees paid to FIFA Agents charged to the Income Statement during the fiscal year and directly related to the football market movements occurred during the 2021/2022 football season, in addition to the fees accrued during the fiscal year and due to FIFA agents for the continued registration of certain First Team players.

The difference between the value of production and production costs is negative for Euro 88,269 thousand, with an improvement of Euro 115,802 thousand compared to the same period of the previous fiscal year, mainly due to the results of the combined effects as better described above.

The result for the fiscal year, in addition to the operating trend mentioned above, was influenced by the worsening of the result of financial management for Euro 15,424 thousand, resulting in net financial expenses of Euro 48,855 thousand (Euro 33,431 thousand at June 30, 2021). This effect, as better commented in the Explanatory Notes and to which reference should be made for further details, is mainly attributable to (i) the costs applied by the factor following the non-recourse assignment of receivables arising from the sale of the players Romelu Lukaku to Chelsea and Achraft Hakimi to Paris Saint Germain (ii) to interest expenses on the New Bond Loan as a result of the increase in the principal and the higher fixed interest rate applied with respect to the previous Bond Loan; and (iii) to accessory charges on loans as a result of the debiting to the Income Statement of the residual value of the accessory charges capitalised in relation to the previous Bond Loan, which was repaid in advance during the fiscal year following the issue of the New Bond Loan.

Revaluation of equity investments (entirely attributable to the 50% interest in M-I Stadio S.r.l.) are recorded for Euro 521 thousand (impairment for Euro 521 thousand at June 30, 2021), contributing to the loss before taxes of Euro 136,603 thousand (Euro 239,474 thousand at June 30, 2021).

Finally, the consolidated loss for the fiscal year, amounting to Euro 140,056 thousand (Euro 245,579 thousand as of June 30, 2021) was further worsened due to net current, deferred and prepaid taxes, amounting to Euro 3,454 thousand, of which Euro 3,747 thousand related to current taxes, as a result of the IRAP tax charge pertaining to the fiscal year 2021/2022, amounting to Euro 7,617 thousand, partially offset by the lower IRAP tax charge recognised and pertaining to previous fiscal years, amounting to Euro 2,674 thousand.

The cash flow trend is fully reviewed in the Cash Flow Statement, to which reference is made.

During the fiscal year net investments were made for a total of Euro 126,833 thousand. Investments regarded the following areas:

Performance of subsidiaries and associated companies

Inter Brand S.r.l.

Following the contribution of its activities to Inter Media, the subsidiary carries out, starting from the fiscal year ended June 30, 2015, very limited activities mainly related to the collection of residual receivables. The financial statements as of June 30, 2022 show a gain, net of tax, of Euro 6,973 thousand.

Inter Media and Communication S.p.A.

The subsidiary Inter Media and Communications S.p.A. ("Inter Media") has been established on May 6, 2014 and it is fully operative since June 5, 2014 (date of the contribution in kind).

On December 21, 2017, after the change from a limited company into a joint-stock company, the subsidiary company Inter Media and Communication, issued and placed a senior institutional secured bond for an amount of Euro 300 million, with a maturity date December 31, 2022 and fixed rate at 4.875% (hereinafter also referred to as 'Bond Loan' together with the new Euro 75 million issue tranche discussed below) and the Company has signed a revolving loan facility for a maximum amount of Euro 50 million; the transaction led to i) full repayment of the amount due under the existing loan to Goldman Sachs and Unicredit amounting to Euro 204 million at the date the Bond Loan was signed in connection with the previous loan agreement, ii) generation of new financial resources to be used for the ordinary activities of the Inter Group.

To cope with the impact of recent events relating to the Covid-19 pandemic on the economic and financial results of the F.C. Internazionale Milano Group, on July 31, 2020 Inter Media issued and placed with institutional investors a new tranche of senior secured bonds for an amount of Euro 75 million at an issue price of 93%, with maturity and fixed rate aligned to the previous issue and placement.

Such Bond Loan was secured by cash flows deriving from the sponsorship agreements and media contracts signed by the subsidiary company Inter Media and Communication S.p.A. as well as the flows deriving from the UEFA rights and the Serie A television rights, similar to the provisions of the previous loan contract described above.

It should also be noted that, as part of the conditions for the issue of the Bond Loan by Inter Media, the Company has granted a pledge on the shares it holds in Inter Media, which is therefore recorded for an amount equal to the value at

which the investment was recorded in the financial statements under commitments, guarantees and contingent liabilities not included in the Balance Sheet, as reported in the section of the Explanatory Notes entitled "Commitments, guarantees and contingent liabilities not included in the Balance Sheet".

The Company and its subsidiary, on December 21, 2017, during the refinancing the refinancing operation, signed an amendment to the Naming Rights (the sports centre Appiano Gentile has been renamed "Centro Sportivo Suning in memory of Angelo Moratti") with which the grants from the Naming Rights contract have been redefined and specifically assigned to FC Inter for 47% and to the subsidiary Inter Media for 53%.

On February 9, 2022, the subsidiary Inter Media completed the issue of a senior bond ("New Bond"), guaranteed, nonconvertible and non-subordinated for a total principal amount of Euro 415 million, with an annual interest rate of 6.75% and maturing on February 9, 2027, intended for subscription only by institutional investors. The main purpose of this issue was to refinance in advance the Group's financial debt, which matures on December 31, 2022, consisting of the previous Inter Media Bond Loan, the amounts of which at the date of repayment totalled Euro 278.2 million and Euro 72.7 million, respectively, as well as the Company's revolving line of credit, the amount of which at the date of repayment totalled Euro 50.5 million. The New Bond is secured by the same collateral as the previous Bond.

The financial statements as at June 30, 2022 closed with a profit of Euro 1,896 thousand, after recognizing a negative balance of taxes of Euro 2,035 thousand, amortization, depreciation and write-downs for Euro 45,867 thousand and after financial charges for Euro 16,686 thousand.

Inter Futura S.r.l.

Inter Futura operates in the service sector and provides the organisation behind social, cultural and recreational purposes; the core business of the subsidiary, i.e. the organisation of Inter Campus in support of children in need around the world, is conducted in 30 different countries through an ongoing process to train approximately 200 local operators who support local activities and bring to bear their professionalism and support to about 10,000 children aged between 6 and 13.

The activities carried out in the fiscal year featured visits to Tunisia, Brazil, Bulgaria, Cambodia, Poland, Bolivia, Bosnia, Cameroon, Congo, Russia, Hungary, Colombia, Morocco and Romania, with the shipment of about ten thousand first team kits to the various Inter Campuses worldwide. Among the countries that have already expressed interest in the activities carried out we would like to highlight Indonesia, India, Mongolia and Kenya.

Finally, the important partnership with the UNOSDP (United Nations Office on Sport for Development and Peace) has continued. From the point of view of communications, the new website linked to Inter.it, with its rich video content filmed during each trip, continued to enjoy success, as did the Instagram profile.

The financial statements as of June 30, 2022 show a loss, net of tax, of Euro 13 thousand.

M-I Stadio S.r.l.

The associated company's activity during the fiscal year concerned, as usual, the management of the Meazza Stadium, as well as, with reference to sports and non-sporting events, ordinary and extraordinary maintenance works.

The value of production amounted to Euro 19,856 thousand as of June 30, 2022, with an increase compared to the previous fiscal year following the reopening of the stadium, although still with limited capacity, and included sponsorships, stadium rental for events, as well as income from the museum and tour. Production costs sustained during the fiscal year amounted to Euro 18,747 thousand, showing an increase compared to the same comparative period, when they amounted to Euro 15,211 thousand, related to the increase in turnover described above. There was a positive result of Euro 1,042 thousand (a negative result of Euro 3,945 thousand as of June 30, 2021).

The associated company as of June 30, 2022 prepares its financial statements on a going concern basis, even without the capital and financial support of the Shareholders, the Parent Company and A.C. Milan S.p.A., which, moreover, have always shown their commitment to provide capital and financial support in case of need.

Research and development

There is nothing to note other than ordinary activities carried out to develop the Youth Sector.

Principal risks and uncertainties

The following is a summary description of the principal risks and uncertainties to which the Group is exposed.

Risks related to general economic conditions (Covid-19 and Russian-Ukrainian conflict)

To date, the Covid-19 pandemic seems to have faded to the extent that activities seem to have returned to normal. However, a worsening of the Covid-19 pandemic, which is in any case not foreseeable at present, could once again lead to the interruption of sports competitions and/or their cancellation, which would have a negative impact mainly on revenues from television rights, sponsorships and, in general from all the Group's commercial activities and on the possibility of generating capital gains from the sale of Players' Registration Rights, the market value of which could be affected by lower investments in the sector due to the consequences of the pandemic, thus generating losses and, consequently, possible financial requirements. Similarly, the potential impact of a worsening of the Russian-Ukrainian crisis is not foreseeable at present, as well as that relating to a continuation of the inflationary context and the increase in rates, which could in turn influence the Group's activities and results.

Risks related to the sponsorship market and commercial agreements

The current situation of economic weakness and uncertainty, also due to the continuation of the Covid-19 pandemic and the Russian-Ukrainian conflict, may affect the sports sponsorship market, reducing the time horizon of promotional/advertising investments.

Furthermore, the Group may not be able to secure equally or more profitable sponsorship contracts due to potential reductions made by sponsors to their respective promotional/advertising budgets given the corresponding uncertainties in the respective sectors due to the continuation of the Covid-19 pandemic and the Russian-Ukrainian crisis. As a result, any requests made to renegotiate the terms of certain sponsorship agreements could expose the Group to a decrease in revenues in relation to renegotiation of fees or as a result of terminations or other termination rights exercised by sponsors due to the temporary inability to fulfil obligations under sponsorship agreements currently in force. This scenario obviously determines possible impacts on the Group's economic, equity and financial situation.

Risks related to the sector of activity

The Group uses as a primary production factor to carry out its characteristic activity players registration rights – an activity subject to risks of injuries that might impact the Group's economic and financial activity at any time. Further, considering the particular activities of the Group, the management trend is exposed to risks relating to sports competitions, above all in terms of the sports results of the First Team.

Reputational risks

The Parent Company is exposed to reputational risks related to violations of the Code of Sports Justice by its registered personnel, former personnel and employees which, as provided by the Federal System, can lead to the referral of the Parent Company based on its objective liability, with the risk of the issue of the relative sanctions.

The decisive emphasis on the ethical characteristics of sports activity that characterizes all of the Parent Company's behaviour and the control measures created in order to mitigate the crimes set forth in Law 231/2001, as well as the approval and adoption of the Code of Ethics and Anti-Fraud Code, are the Parent Company's response to such type of threat in view of mitigating the risks deriving from third party behaviour.

Financial risks

The following are the main risks related to the ordinary performance of the Parent Company's activity:

Credit risk

Unsecured receivables are carefully monitored and any collection risks are recorded in a specific allowance for doubtful accounts. This risk is partially mitigated by the fact that most of the receivables are concentrated with highly prestigious counterparties who therefore have good financial standing and consequent ability to pay their debts. However, it should be noted that the collection of certain credit positions (especially those due from Chinese companies) due to the continuation of the Covid-19 pandemic, could be subject to delays, without however impacting on the company's ability to continue as a going concern given the Leading Shareholder's commitment to guarantee its support.

Receivables from Italian football clubs are secured through the clearing house mechanism of the Serie A National League of Professionals.

Risks related to the need for financial means and the minimal level of capitalisation

The Group expects to meet the needs arising from the debt exposure, through the flows generated by operations, the available liquidity, also taking into account the commitment of the Leading Shareholder to financially support the Group, in fact guaranteeing financial flows and resources that allow it to have liquidity to meet the financial commitments already in place and also to support future investment operations as well as to maintain a level of capitalization for the Parent Company consistent with the provisions of art. 2446 and 2447 of the Italian Civil Code, supplemented by article 1, paragraph 266, of Law no. 178 of December 30, 2020 and by Article 3, paragraph 1-ter of the Milleproroghe Decree No. 228/2021 converted with amendments into Law No. 15 of February 25, 2022, which suspended the application of the obligation to adopt measures following the reduction of share capital due to losses (Articles 2446 and 2447 of the Italian Civil Code) upon the occurrence of certain conditions provided for by law.

Finally, it should be noted that with reference to the New Bond Loan, the same provides for compliance with certain financial parameters as better described in the Explanatory Notes. Any failure to comply with the aforesaid parameters could result in the Group's forfeiture of the benefit of the term with the consequent need to find significant financial resources to repay the remaining amount of the bond. With reference to the verification of compliance with these parameters, reference should be made to the explanatory notes. The procurement of these additional financial resources, in addition to those independently generated, should they be necessary due to liquidity trends that differ from those foreseen by the aforesaid projections and necessary to fulfil the payment obligations, are in any case guaranteed by the support of the Leading Shareholder, should the need arise.

The Group's Management carries out periodic reviews of management performance in order to ascertain whether any estimates and assumptions made for asset and liability items are confirmed in the current values and in the case of changes, these are immediately reflected in the Income Statement. For further details, please refer to the "Going Concern" section of this Report on Operations and the Explanatory Notes in which the considerations and assessments made regarding the application of the going concern assumption for the preparation of the financial statements as of June 30, 2022 are illustrated.

Risks related to fluctuations of interest rates

As of June 30, 2022, the Group held interest-bearing financial positions with the Leading Shareholder totalling Euro 81,236 thousand (of which Euro 60,000 thousand was the principal amount), bearing interest at a net fixed annual rate of 8%, and the New Bond Loan for Euro 408 million, issued and placed on February 9, 2022 for a nominal amount of Euro 415 million and maturing on February 9, 2027, of which more details are provided in the Explanatory Notes. The aforementioned loan provides for a fixed rate of 6.75% and therefore the risks related to interest rate fluctuations are currently negligible. In the context of this new issue and placement, the previous Bond Loan and revolving credit line, with a natural maturity date of December 31, 2022, were early extinguished.

For this reason, all the risks connected to the volatility of the interest rate are negligible.

Significant events occurring after the end of the fiscal year and business outlook

The 2022/2023 fiscal year began with a season ticket campaign that recorded a significant increase in revenues, in consideration of the fact that in the 2021/2022 fiscal year the same had not been carried out due to the restrictive measures imposed by Authorities and Institutions because of the continuation of the Covid-19 pandemic.

The results, also in light of the outcome of the summer transfer campaign and some renegotiations of sponsorship contracts, could be slightly worse than those expected in the budget taken as a reference as the first year of the Financial Fair Play plan, although they will always depend on the unpredictable trend of participation in European competitions and on the results that the First Team will obtain, as well as on extraordinary transactions such as the sale of players' performances in the winter transfer market. Please refer to the "Going Concern" section of this Management Report and in the Explanatory Notes where the considerations and evaluations made by the Directors to consider that the Company operates as a going concern in the foreseeable future are illustrated, in addition to the "Financial Fair Play" section for the estimates of the penalties applicable following the new agreement signed at the end of August 2022.

The sports goals for the new season are aimed at maintaining the First Team at competitive levels for all competitions in which the Club participates. In this regard, it should be noted that the summer transfer campaign of July and August 2022 was mainly characterized by:

- Temporary transfer of the football registration rights of the player Sebastiano Esposito to Anderlecht; the agreement valid for the 2022/2023 season provides the right to purchase by the end of the 2022/2023 season;
- Temporary acquisition of the football registration rights of the player Raoul Bellanova from Cagliari; the agreement, valid for the 2022/2023 sports season, provides for the Company the right to purchase by the end of the 2022/2023 season;
- Temporary transfer of the football registration rights of the players Martin Satriano to Empoli and Ionut Radu to Cremonese, Lucien Agoumè to Troyes and Stefano Sensi to Monza;
- The definitive transfer of the football registration rights of the player Cesare Casadei to Chelsea;
- The temporary transfer of the football registration rights of the player Andrea Pinamonti to Sassuolo; the agreement, valid for the sports season 2022/2023, provides for the obligation to purchase at the first point of the First Team after the date of February 2, 2023;
- Temporary transfer of the football registration rights of the player Eddie Anthony Mora Salcedo to Bari; the agreement valid for the 2022/2023 season provides the right to purchase by the end of the 2022/2023 season;
- Temporary transfer of the football registration rights of the player Valentino Lazaro to Torino; the agreement valid for the 2022/2023 season provides for Torino the right to purchase to be exercised by the end of the 2022/2023 season;
- Temporary transfer of the football registration rights of the player Lorenzo Pirola to Salernitana; the agreement valid for the 2022/2023 season provides for Salernitana the right to purchase to be exercised by the end of the 2022/2023 season and the right of counterposition in favour of the Company;
- Temporary acquisition of the professional rights of the player Francesco Acerbi from Lazio; the agreement, valid for the 2022/2023 sports season, provides for the Company the right to purchase by the end of the 2022/2023 season;
- In July and August 2022 the Company terminated the economic contracts of the players Arturo Vidal and Alexis Sanchez, expiring on June 30, 2023, with recognition of the economic effect in this financial statements, as described in the paragraph "Depreciation of fixed assets" of the Explanatory Note.

From a financial point of view, in order to raise new financial resources, in July 2022 the Parent Company reached an agreement with Generali Italia S.p.A., for the extension of the insurance surety policy for an additional Euro 19.1 million for a total of Euro 45 million to guarantee the debit balances of the Company's transfer account in favour of the Lega Nazionale Professionisti Serie A, as provided for by the regulations issued by the FIGC on the subject of players' registration and transfers (in particular, from FIGC Official Notice No. 251/A, published on May 19, 2022).

From a commercial point of view, in July the Parent Company launched an e-commerce platform, intended as an online shop operating on a global scale that allows professional customers and consumers to purchase the Company's products, with the aim of maximising revenues and up selling and cross selling methods with direct management and full control of the entire process from the development of product lines to their sale.

The crisis in the crypto-currency sector, which worsened during the second quarter of the year 2022, has also impacted and is still impacting the Group's cash flows, and, specifically, the subsidiary Inter Media, especially with reference to the sponsorship agreement signed with Zytara Labs - Digitalbits, as better described in the section "Other information - Sponsorship agreements". In fact, at the date of preparation of these financial statements, invoices relating to performance bonuses accrued as a result of the sports results achieved by the Parent Company's First Team in the 2021/2022 football season, amounting to Euro 1.6 million (entirely written off already at June 30, 2022), as well as the first instalment for the 2022/2023 football season under the title of Jersey Sponsor - Main for Euro 8 million (entirely covered at June 30, 2022 by deferred income recognised for a similar amount in the liabilities of the Balance Sheet), were due and not yet collected. In addition to the above, to date the counterparty has not presented the project, contractually envisaged, regarding the integration of these financial statements, the F.C. Internazionale Milano Group's digital ecosystem, which has just been restructured. As of the date of preparation of these financial statements, the F.C. On July 7, 2022, the Parent Company received a writ of summons from China Construction Bank (Asia) Corporation Limited ("CCB"), whereby CCB brought a revocatory action before the Civil Court of Milan against the Parent Company's shareholders' resolution of February 18, 2019, regarding Directors' emoluments, in the context of broader actions to protect its economic interests in China. The Parent Company, as a party involved in the action brought by CCB, intends to instruct its lawyers to carry out an in-depth analysis of the case and of the case law on ordinary revocatory actions and protect its reasons in the lawsuit brought by CCB, whose first hearing, initially set for November 14, 2022, was postponed to March 8, 2023.

Lastly, on August 10, 2022, Inter received a claim for Euro 30 million raised by Sporting Clube de Portugal - Futebol ("Sporting CP") in relation to the definitive transfer of the player Joao Mario to Benfica for failure to activate the preemption clause in favour of Sporting CP in the event of the player's transfer to any other club participating in the Portuguese championship. The Company, while considering itself not responsible for contractual violations, is examining with its lawyers the counterparty's objections and will take action in the appropriate venues to protect its interests.

Explanatory Notes to the Consolidated Financial Statements as of June 30, 2022

General information about the Group

F.C. Internazionale Milano S.p.A. (hereafter "F.C. Inter" or "the Parent Company") is a share capital company, incorporated and domiciled in Italy, having its registered office in Milan, Viale della Liberazione 16/18, whose controlling shareholder, since June 28, 2016, is the company Great Horizon S.à.r.I controlled by Suning Holdings Group Co., Ltd. ("Leading Shareholder"). Subsequently, as part of a financing transaction involving the Leading Shareholder during the previous fiscal year, Great Horizon S.à.r.I. transferred the shares held in the Company to the newly incorporated Grand Tower S.à r.l., which therefore became the new direct parent company of the F.C. Internazionale Milano Group, wholly owned by Great Horizon S.à.r.I.

The activities performed by the Parent Company and its subsidiaries (hereinafter the "Group", the "F.C. Inter Group" or the F.C. Internazionale Milano Group") generates income of various nature, mainly related to traditional sports activity, the management of the team and the granting of radio and television rights, as well as related to sponsorships and to the exploitation of the trademark and image rights.

Parent Company's corporate structure

At the time these consolidated financial statements were prepared, the Parent Company's corporate structure was as follows:

- Great Horizon S.à.r.I 68.55% (entirely controlled by Suning Holdings Group Co., Ltd.);
- International Sport Capital S.p.A. 31,05% (hereafter, alternatively, "ISC");
- Other minority shareholders 0.4%.

The entry of the Suning Group, Chinese multinational operating in the consumer electronics retail market, occurred in June 2016, has continuously made financial resources available to the Company and to the F.C. Internazionale Milano Group for its relaunch at national and international level. Finally, the aforementioned new parent company Grand Tower S.à.r.I. – in the context of the financing operation of the Leading Shareholder mentioned above – proceeded to disburse shareholder loans interest-bearing at a net fixed rate of 8% per annum for Euro 75 million, of which Euro 50 million on May 20, 2021 and Euro 25 million on June 28, 2021 converted into capital for Euro 15 million on 31 May 2021.

Form and content of the consolidated financial statements

The consolidated financial statements consist of the Balance Sheet, Income Statement, Cash Flow Statement and Explanatory Notes. Specifically, the latter serves the function of providing an explanation and analysis of the consolidated data, and contains the information required by the provisions of Article 38 of Legislative Decree 127/1991. The statements of assets and liabilities and those of profits and losses are expressed in Euro, whereas the Report on Operations and Explanatory Notes are expressed in thousand Euro, as explicitly stated in the comments and tables unless otherwise specified.

In order to comply with the procedures specified in articles 2424 and 2425 of the Civil Code, and by the additions and changes introduced to the civil code by the Legislative Decree 139/2015 and next changes starting from December, 29 2017, which implemented in Italy the accounting Directive 34/2013/EU, the items of the consolidated Balance Sheet, Income Statement and Cash Flow Statement were classified according to the structure of financial statements required by the professional football club, in compliance with the provisions of the FIGC Official Communiqué n° 58, published on September 5, 2006; such provisions were integrated to those issued by the Commissione di Vigilanza per le Società di Calcio (Supervisory Commission for Italian Football Clubs) – Co.Vi.Soc. – which allowed for the technical interpretation of the legal provisions, and which were also taken into account while preparing the consolidated financial statement.

In complying with the layouts set forth in Articles 2424 and 2425 of the Civil Code, the numbering of the items set forth therein has been exactly reproduced, omitting the items marked with Arabic numerals that have a zero value in this and the previous year.

In the Explanatory Notes the changes in the individual items are indicated and the comments limited to the main items.

The "Appendices" section, which is an integral part of the Notes to the Financial Statements, includes schedules containing both certain mandatory information required by current regulations and those considered useful for the clarity and completeness of the consolidated financial statements as of June 30, 2022.

It should be noted that, the Cash Flow Statement is prepared in accordance with the format of the new "UEFA Licensing Manual - Edition 2020 - Appendix IX", with first application in the consolidated financial statements for the fiscal year ended on June 30, 2021.

Area of consolidation and the presentation of the consolidated financial statements

The consolidation perimeter of the F.C. Internazionale Milano Group, remained unchanged compared to June 30, 2021, was determined with reference to the legal control that the Parent Company exercises on the Group companies.

Therefore, the consolidated financial statements include the financial statements of the Parent Company F.C. Internazionale Milano S.p.A., its subsidiaries Inter Media and Communication S.p.A., Inter Brand S.r.I. and Inter Futura S.r.I., of which the Parent Company holds, directly or indirectly, the majority of the voting rights and over whose activity it has a dominant influence. The associated company M-I Stadio S.r.I., in which it holds a 50% stake together with the company A.C. Milan S.p.A., was measured using the Shareholders' Equity method ("equity method").

The consolidation perimeter as of June 30, 2022 thus includes the following companies, in addition to the Parent Company:

COMPANY	Percentage shareholding equity
INTER MEDIA AND COMMUNICATION S.P.A.	100%*
INTER BRAND S.R.L.	100%
INTER FUTURA S.R.L.	100%
M-I Stadio S.r.I. (consolidated using "equity method")	50%

*55.61% held directly by the Parent Company FC Internazionale Milano SpA and 44.39% held indirectly through Inter Brand S.r.I.

The reference date of the consolidated financial statements (June 30, 2022) is the date the Parent Company's fiscal year ends.

The companies Shanghai Inter Brand Trading Co., Ltd. and Inter Brand China Co., Ltd. in liquidation, subsidiaries indirectly held by the Parent Company through Inter Brand S.r.l., were not consolidated because they no longer represent a long-lasting investment for the Group and the shareholdings are classified in the line item "Financial assets not held as fixed assets" of Working capital. Further, the latter, do not have accounting values that are globally relevant in accordance with Art. 28 of Legislative Decree 127/91, due to the future liquidation.

Consolidation standards

The following consolidation standards were used to prepare the consolidated financial statements:

- the measurement criteria conform to the provisions of Article 2426 of the Italian Civil Code;

- in preparing the financial statements, all the general standards analytically indicted and defined by Article 2423-bis of the Italian Civil Code were complied with;

- the line items were not grouped in the Balance Sheet and in the Income Statement;

- the financial statements were prepared through the complete consolidation of the companies Inter Media and

Communication, Inter Brand S.r.I. and Inter Futura S.r.I., whereas for the associated company M-I Stadio S.r.I. the Shareholders' Equity method (*equity method*) was used, in which the pro-quota result is recognized in an individual line of the Income Statement (among revaluations/write-downs of equity investments), whereas the value (pro-quota) of Shareholders' equity is synthetically recognized in the line item "Equity Investments".

The consolidation accounting records mainly regard:

a) ELIMINATION OF EQUITY INVESTMENTS IN SUBSIDIARIES

- The accounting value of the equity investments held by F.C. Internazionale Milano S.p.A. in the subsidiaries and by Inter Brand S.r.I. in Inter Media and Communication S.p.A. was eliminated, at the time of consolidation, with respect to the relative Shareholders' equity in exchange for the assumption of the assets and liabilities of the subsidiaries using the global integration method.
- b) INTERGROUP TRANSACTIONS The reciprocal receivables and payables as of June 30, 2022 and the most significant economic transactions that occurred during the fiscal year that ended on such date among the companies included in the consolidation perimeter were eliminated. Specifically, all the effects deriving from the intergroup contribution described in the paragraph "Contribution in kind and Debt Refinancing" were eliminated.
- c) DEFERRED AND PREPAID TAXES With reference to the recognition of deferred tax assets and liabilities in the consolidated financial statements, given the values of the tax losses not measured as of June 30, 2022, by virtue of the tax consolidation agreement between the Parent Company and its subsidiaries, the Directors deemed it inappropriate to recognise IRES deferred tax assets and liabilities, but only to recognise IRAP deferred tax liabilities, although these are recognised in certain Group companies in view of their future profitability and the absence of past tax losses of the aforementioned companies.

Reference should be made to the section "Going concern" for information regarding the Group's and the Parent Company's ability to continue operating as a going concern, and it should be borne in mind that the minimum capitalization limits provided for in art. 2447 of the Italian Civil Code are not applicable to the consolidated financial statements. The Parent Company's shareholders' Equity as at June 30, 2022 was negative by Euro 36.3 million. In this regard, it should be noted that the Shareholders' Meeting of the Parent Company held on October 28, 2021 approved the financial statements for the fiscal year ended on June 30, 2021 with a final loss of Euro 214,412,630, resolving to postpone the replenishment of this loss by the fifth fiscal year following the one in progress as at December 31, 2020 (or, for the Parent Company, to the fiscal year closing on June 30, 2026), as provided for in Article 1, paragraph 266, of Law No. 178 of December 30, 2020. It should also be noted that the Milleproroghe Decree No. 228/2021 (effective as of December 31, 2021) converted with amendments by Law No. 15 of February 25, 2022, in Article 3, paragraph 1-ter (extension of terms in economic-financial matters) extended the option to losses arising in the fiscal year in progress as of December 31, 2021 (or, for the Parent Company, to the fiscal year ending on June 30, 2027). The Parent Company intends to utilise this option of deferring the immediate adoption of the obligations set forth in Articles 2446 and 2447 of the Italian Civil Code should it fall within these cases in the foreseeable future, deferring the loss for the fiscal year ending June 30, 2022 in accordance with the aforementioned legal provisions and therefore operating with negative shareholders' Equity to which losses of approximately Euro 342 million can be written off in five years.

Measurement criteria and accounting standards

In preparing the consolidated financial statements, we complied with standards of clarity as well as the truthful and accurate representation of the Balance Sheet and Income Statement set forth in the second clause of Article 2423 of the Italian Civil Code.

The consolidated financial statements were prepared according to the provisions of Legislative Decree 127/91, in compliance with general standards of prudence, accrual-based accounting, and in view of going concern, based on the assumptions better discussed in the paragraph "Going Concern" Report on Operations, and considering the economic utility of the asset and liability items. In this context, the going concern issues, is provided by the Parent Company and the other companies inside the consolidation organization.

The valuation criteria adopted for the preparation of the financial statements as at June 30, 2022, unchanged with respect to those used for the comparative financial statements, comply with the provisions of the Italian Civil Code, as amended by Legislative Decree 139/2015, duly supplemented by the accounting principles drawn up by the National Councils of Chartered Accountants and Accounting Experts, as amended by the O.I.C. (Organismo Italiano di Contabilità), also taking into account industry practices and the provisions issued by the Federazione Italiana Giuoco Calcio (Italian Football Federation) and the Commissione di Vigilanza per le Società di Calcio (Supervisory Commission for Football Clubs),

which have allowed for a technical interpretation of the law, are indicated in the following paragraphs with specific reference to the individual items that make up the Balance Sheet and Income Statement. It should also be noted that in preparing the consolidated financial statements as at June 30, 2022, no departures were made pursuant to Article 2423, paragraph 4 and Article 2423-bis, last paragraph, of the Italian Civil Code.

Going Concern

The present consolidated financial statements is prepared according to the principle of going concern in accordance with the considerations set out below and events described below.

During the fiscal year, the club recorded a significant loss of Euro 140.1 million, an improvement on the loss made in the 2021/2022 season (Euro 245.6 million), thanks both to capital gains from the sale of certain players and to the easing of restrictive measures against the Covid-19 pandemic, which, although it still had a negative impact on the 2021/2022 season, allowed a gradual return of spectators to the stadium and the achievement of ticket revenues that had been zero in the previous season.

As a result of the loss realised during the fiscal year, from an equity point of view, the net equity of the Parent Company was negative for Euro 36.3 million as of June 30, 2022. In this regard, it should be noted that the Company's Shareholders' Meeting of October 28, 2021 had approved the financial statements for the fiscal year ended on June 30, 2021 with a final loss of Euro 214,412,630, resolving to postpone the replenishment of this loss by the fifth fiscal year following the one in progress as of December 31, 2020 (i.e., for the Parent Company, to the fiscal year closing on June 30, 2026), as provided for in Article 1, paragraph 266, of Law No. 178 of December 30, 2020, allowing the Parent Company's equity to comply with the minimum capitalisation limits provided for in Articles 2446 and 2447 of the Code. It should also be noted that Decree Milleproroghe no. 228/2021 (effective as of December 31, 2021) converted with amendments into Law no. 15 25 February 25, 2022, in Article 3, paragraph 1-ter (extension of terms on economic and financial matters) extended to losses that emerged in the fiscal year underway as of December 31, 2021 the "sterilisation" discipline originally provided for by Decree-Law no. 23 of April 8, 2020, converted with amendments by Law no. 40, thus recognising the possibility for the Shareholders' Meeting to postpone the replenishment of this loss until the fifth fiscal year following the one in progress as at December 31, 2021 (i.e., for the Parent Company, the fiscal year ending June 30, 2027). When approving the annual financial statements for the 2021/2022 season, the Parent Company intends to use this option to defer the immediate adoption of the obligations set forth in Articles 2446 and 2447 of the Italian Civil Code, deferring the loss of Euro 127,308,418 for the fiscal year ended on June 30, 2022 in accordance with the aforementioned legal provisions and thus operating with negative shareholders' equity to which losses that can be written off in five years amounting to approximately Euro 342 million will contribute.

From a financial point of view, the transfer during the 2021/2022 season of players at significant values has more than offset the cash absorption of the core business as a result of the losses in the Income Statement and, together with the refinancing of the financial debt, has not determined the need for the Leading Shareholder to contribute additional financial resources during the fiscal year.

More specifically, it should be noted that on February 9, 2022, the subsidiary Inter Media and Communication S.p.A. (hereinafter also referred to as "Inter Media") completed the issue of a guaranteed, non-convertible, non-subordinated senior Bond Loan for a total principal amount of Euro 415 million, with an annual interest rate of 6.75% and maturity on February 9, 2027, mainly aimed at the early refinancing of its financial debt, whose maturity date was set for December 31, 2022. For more information on the refinancing transaction, please refer to the section "Other Information - Debt refinancing".

In addition, in order to contain financial outlays, in July 2022 the Parent Company, through Generali Italia S.p.A., extended the insurance guarantee policy by a further Euro 19.1 million, reaching the amount of Euro 45 million to guarantee the debit balances of the Group's transfer account in favour of the Lega Nazionale Professionisti Serie A, as provided for by the regulations issued by the FIGC on the subject of players' registration and transfers (in particular, by the Official Notice of the FIGC no. 251/A, published on May 19, 2022).

In addition, during the fiscal year, installments were paid and renegotiated for certain debt items, in particular of a fiscal nature, in accordance with the regulations granted by the various decrees supporting companies in the context of the crisis caused by the Covid-19 pandemic.

As a result of the above, the Group had cash and cash equivalents of Euro 139.2 million at June 30, 2022.

In this context, despite the fact that forecasts show, in the foreseeable future, the emergence of losses and consequent cash absorption, especially with reference to ordinary operations, characterised by high operating and financial cash requirements, the Directors have prepared these financial statements on a going concern basis, considering both the financial resources available to the Company and the contribution of additional financial resources expected from the Leading Shareholder (Suning), through Grand Tower S. à r.l., which is the direct parent company of the Group and with which adequate liquidity is available, and which has already expressed its formal commitment to provide financial support to the Parent Company and the Group for at least twelve months from the date of approval of these financial statements or, if a change of control of the Parent Company occurs before twelve months, until the date on which control of the Company is maintained.

It should be noted, however, that the Group's activities are closely linked to the sporting performance of the First Team and the regular running of the Serie A Championship and the European competitions in which the First Team takes part,

and could therefore be affected by further potential impacts, which are not foreseeable at present, in relation to a revamping of the Covid-19 pandemic, which, together with the climate of general instability also connected to the conflict in Ukraine, as well as the inflationary context, rising interest rates and general volatility, could in turn influence the activities and results of the Parent Company and the Group in a worse way than what is currently expected. With reference to the conflict between Russia and Ukraine, where the Group do not have a presence, which broke out in February 2022, at the time of preparing these financial statements the Directors do not expect any significant direct effect, as also confirmed by the season ticket campaign and stadium attendance. The Parent Company and the Group are, moreover, active in applying the guidelines and directives of the European Union, in order to comply with sanctions and safeguard the operation of its business and the safety of its operators.

ASSETS

Intangible assets

Intangible assets are recognized, with the prior consent of the Board of Statutory Auditors, if expressly required, at purchase cost, inclusive of any ancillary costs, and are systematically amortised for the period of their foreseeable future utility.

If, independently from the amortisation already recorded, there is an impairment loss, the fixed asset is written down by a corresponding amount; if during subsequent fiscal years the conditions for the write-down cease to exist, the original value is restored, adjusted only by amortisation.

Industrial patents and similar intellectual property rights

These have been amortised based on their estimated useful life, mainly on a three-year basis starting from the fiscal year in which the process of economic utility initiated. The necessary write-downs are made if it is not clear that the investments are recoverable.

Concessions, licenses, trademarks and similar rights

The item Concessions, licenses, trademarks and similar rights mainly includes the value of the "Inter" brand, a "centenario" brand with a great tradition, and the "Libreria Storica", referring to the purchase of the RAI television archive (historical archive of images, materials and rights relating to FC Inter), as described in greater detail in the paragraph "Other information - Agreements with the RAI Group, Infront and Dazn".

It is recalled that in the fiscal year ended on June 30, 2021 the Group availed itself of the option pursuant to art. 110 of Law Decree no. 104/2020, converted into Law no. 126 of October 13, 2020 and, with the support of an independent expert, proceeded to revalue the "Inter" brand and the "Libreria Storica", recorded among intangible assets.

The revaluation was carried out by intervening only on the historical cost, entailing, for the "Inter" brand, an extension of the amortization period for a further 20 years, which was in any event deemed consistent with the effective residual useful life of the revalued asset, while for the "Libreria Storica" the amortization is calculated on a straight-line basis for 20 years from the date of the revaluation, within the time limits of the legal protection of the revalued asset and in line with that described in the appraisal.

Construction in progress and advances

The improvements to the G. Meazza Stadium were recognized among the costs capitalised in the caption constructions in progress and advances. Such costs were not amortised because they will be offset by the rent due to the Municipality of Milan (recognized in the line item "Trade payables") when the work performed has been tested and approved by such Municipality in accordance with the Convention stipulated by F.C. Internazionale Milan S.p.A. and A.C. Milan S.p.A. for the exploitation of the Stadium, which provides for the possibility of incurring expenses for the improvement and adjustment to legal requirements of the Stadium, that can be used "as deductions" with respect to the rent.

Capitalisation of youth programme costs

The changes introduced by the D.lgs. 139/2015 have also affected the regime of Capitalisation of youth programme costs, resulting in the issuance of the accounting recommendation # 2 – Capitalisation of youth programme costs by the Italian Football Federation (Figc) in order to define the costs eligible to be deferred. Specifically, the capitalisation of such costs are allowed in the case that these charges are esclusivamebte occurred for managing, promote, and develop youth sector.

Such line item also includes the training bonuses paid, in accordance with Article 96 N.O.I.F., to amateur/professional clubs following registration by the Parent Company of young football players coming from them. Under no circumstances can be capitalised the remuneration and reimbursement of expenses recognised for expatriate employees in the youth sector teams.

Such costs, having long-term utility, were capitalised in their entirety without any reference to the individual football players, and are amortised on a straight-line basis in five fiscal years, starting from the fiscal year in which they were incurred. The capitalisation of the above costs is done using a specific line item of the Income Statement called "Capitalisation of youth programme costs".

It should be noted that the FIGC and Co.Vi.Soc., on November 12, 2021, published the 2021 edition of the "Raccomandazioni Contabili FIGC", applicable, at the latest, starting from the fiscal year following the one in progress on December 31, 2021 (and therefore for the Group starting from July 1, 2022). These new recommendations envisage, inter alia, the inadmissibility of capitalising the costs of the youth team that, as of June 30, 2022, had a net book value in the

financial statements of Euro 17,313 thousand. The Group intends to apply these new recommendations as of July 1, 2022.

Player registration rights

The player registration rights are recognized at their historic purchase cost, inclusive of any directly attributable ancillary costs, and the amounts are net of the amortisation rates that are calculated at constant rates in relation to the duration of the contracts stipulated with the individual professional football players. In the event that the payment for the acquisition of rights is deferred with respect to normal market conditions (generally over 12 months from the date of purchase), the player registration rights is recorded in the financial statements corresponding to the actualized debt value determined in accordance with OIC 19 "Payables".

The amortisation begins in the fiscal year in which the football player is registered by the Parent Company.

For rights acquired during the fiscal year, amortisation starts from the date of the player's availability, using the *pro-rata temporis* method.

The original amortisation plan may be extended as a result of the possible renewal of the contract, even though it occured after the close of the financial year, but before the approval of the financial statements. The new amortisation plan, on a straight-line basis, takes into account the net book value of the right, at the beginning of the date of the fiscal year, and its new duration.

The player registration rights are recognized (in case of purchase) or are eliminated from the financial statements (in case of sale) at the date of the contract, to which retrospective, pursuant to art. 1360 Civil Code, the effect of the enforceability certificate issued by the National League of Professionals (*"Lega Nazionale Professionisti"*) for national transfers or the International Transfer Certificate ("ITC") issued by the Italian Football Federation for international transfers. In the absence of a contractual estimate of the enforceability visa issued by the National Professionals League for national transfers or the financial statements is that of the enforceability visa issued by the National Professionals League for national transfers or the effect of the issuance of ITC from part of the Italian Football Federation for international transfers.

Such line item also includes the multi-year costs incurred by the Parent Company for the registration as professionals of football players coming from amateur clubs, or foreign clubs that have contributed to the technical training of such football players.

Specifically, the following have been recognized:

- the bonuses for training and learning technical skills were paid, in accordance with Article 99 N.O.I.F., to the amateur clubs after the stipulation of the first contract as a "professional" of football players coming from it. Such costs are amortised at constant rates in relation to the duration of the contracts stipulated with the individual football players;
- the training indemnities were paid, on the basis of FIFA regulations, to foreign clubs after the stipulation of a contract as a "professional" of football players coming from them. Such costs are amortised at constant rates in relation to the duration of the contracts stipulated with the individual football players.

For the football players of series with a multi-year restriction, the cost is amortised at constant rates over a maximum period of five fiscal years.

The rights recognized in the accounting records refer both to registered athletes that participated, by means of their registration, in the activity of the fiscal year to which the financial statements refer, as well as to the registered athletes for the following season with a transfer contract stipulated prior to the reference date of the financial statements. No amortisation was calculated for them latter.

With specific reference to loan agreements that provide for the obligation that they be transformed from temporary acquisition to a definitive acquisition upon the occurrence of specific conditions ("loan agreement with redemption obligation"), the right to the registration of the football player (corresponding to the overall amount of the consideration provided for the redemption, increased by the consideration due for the temporary acquisition) and the relative payable are recognized in the Balance Sheet starting from the season in which it is highly probable that these conditions will occur because it is in that season that, pursuant to the OIC 24, "control" is manifested over the player's performance, which determines the need to enter all the variable and/or conditional payments (these last ones only when determinable and highly probable); such right is amortised using the same criteria previously described with reference to the multi-year rights to the registrations of the football players. Likewise, in the case of temporary transfers that provide for a redemption obligation on specific conditions, the capital and economic effects (recognition of trade teceivable for invoice to be issued amounting to the sell price – which includes the amount of the fees together with the redemption value – and derecognition of the player right with gain or loss arose charged to income statement as a consequence) are recognized at the time when the condition is highly probable. The receivables is instead entered when the contractual condition is realized.

It should be noted that should certain conditions foreseeable and/or under the Group's control become highly probable or materialise between the reporting date and the date of approval of the financial statements, the capitalisation or the sale of the player registration rights and the consequent effects are backward recognized as adjusting event at the reference date of the financial statement, in accordance to OIC 29, being such transaction related to an asset under the control of the Parent Company according to OIC 24.

If the player is not confirmed at the end of or during a season, by means of the termination of the contract, the residual net accounting value is charged to the Income Statement in the fiscal year, even if the termination of the contract after the reference date of the financial statements or financial statements.

Further, when there are indicators of the loss of value of the multi-year rights to the registrations of the football players, a write-down is made of the residual book value.

The effects of integrations and innovations introduced to the civil code by the D.Igs. 139/2015 on the "Player registration rights" are described in "Payables and receivables to/from football clubs".

Other intangible assets

The other intangible assets, mainly related to the work for the requalification of the areas inside of the G. Meazza Stadium, that are not "deducted" from the rent, and improvements to the "Giacinto Facchetti" Sports Centre and to the new building used as legal and administrative headquarter (situated in Viale della Liberazione 16/18, Milan), are recognized at purchase cost, net of the relative amortization fund. The amortization rates were calculated in a straight-line basis in relation to the residual possibility of use. Specifically, with reference to the duration of the amortization period, it corresponds to the shorter between the duration of the concession contract and the useful life of improvements.

Property, plant and equipment

Property, plant and equipment are recognized at purchase cost, inclusive of directly attributable ancillary costs, and increased by maintenance costs and repairs of an incremental nature; land and buildings are recognized at their current value on the date of the merger with Inter Capital S.r.l. Maintenance costs and the costs for ordinary repairs that do not involve an increase of the values of assets are instead directly allocated to the Income Statement.

Property, plant and equipment construction in progress are recognized at cost in "Construction in progress" until their construction has been completed; upon completion, the cost is classified in the relative line item and subject to depreciation.

It is specified that in the consolidated financial statements as of June 30, 2022, no economic or monetary revaluations were made in accordance with law.

The values of property, plant and equipment are adjusted, directly in the account as required by the Balance Sheet format, by annual depreciation rates calculated systematically and on an accrual basis, reduced by 50% for assets acquired during the fiscal year, based on tax rates deemed to be representative of the estimated useful economic-technical life of the fixed assets. Purchases of assets in a unitary amount less than Euro 516.46 were allocated directly to the Income Statement. The annual tax rates used for depreciation are indicated in the following table:

Asset	Rate
Land and Buildings	
Buildings	3.0%
Light buildings	10.0%
Plant and Machinery	
Generic systems	10.0%
Specific systems	19.0%
Equipment	
Sports and various equipment	15.5%
Sanitary equipment	12.5%
Other assets	
Electronic machinery	10%-15%-20%
Furniture and office machines	12.0%
Motor vehicles	25.0%

Assets having an unlimited useful life, such land are not subject to depreciation.

If, independently from the depreciation already recorded in the financial statements, there is a long impairment loss of value, there is a corresponding write-down of the fixed asset; if during subsequent periods the reason for impairment loss no longer exist, the original value is restated and adjusted only by depreciation.

Loss of value of intangibles and property, plant and equipment

At each reference date intangibles and property, plant and equipment are analysed to determine whether there are any indicators of reduction of their value (*impairment test*). If such indicators are found, an estimate of the recoverable value of the relative assets is made, allocating any write-down to the Income Statement. The recoverable value of an asset is the greater between its fair value, and its value in use, when the latter is the current value of the estimated future financial cash flows for such asset. In determining the value in use, the expected future cash flows are discounted using a discount rate that reflects the current market valuation of the cost of money, related to the year of the investment and the specific risks of the asset, or the specific realisable value of the fixed asset in the event of disposal (in particular for rights to use a player's services when the player is no longer consistent with the team's technical project). An impairment loss is recognised in the Income Statement when the asset's carrying amount is higher than its recoverable amount. If the conditions for a previously recognised impairment loss no longer exist, the book value of the asset is reinstated with a credit to the Income Statement, within the limits of the net book value that the asset in question would have had if the impairment loss had not been recognised and depreciation had been charged.

Financial fixed assets

Equity investments in associated and other companies

With reference to M-I Stadio S.r.I., as already described above, the relative financial fixed assets has been recognized in the accounting records using the Shareholders' Equity method (*equity method*).

Financial investments in other companies are recognized in financial statements at their subscription or purchase cost, in case are adjusted following long-lasting losses of value. If on the date of the close of the fiscal year, the financial statements of associates and subsidiaries, based on available data, indicate losses considered to be non-recoverable with respect to future profits, the financial fixed assets investment is written down so that its net value is equal to the proquota share of the associate/subsidiary's Shareholders' equity. Impairments of financial fixed assets are not maintained in subsequent fiscal years if the reasons for the write-down no longer exist.

Receivables included in the financial assets

In this line item there are recognized among others the amounts paid as a guarantee on the Bond Loan placed in the fiscal year 2017/2018, in July 2020 and in February 2022 as better described in the paragraph "Other information - Debt refinancing".

Receivables from others represent security deposits recognized at nominal value, and those in foreign currency are recognized in the accounting records in Euro at the exchange rate on the date the transaction took place, or at the exchange rate on the date the fiscal year of reference ended if lower and if the reduction is long-lasting.

Inventories

Goods are recorded at the lower of purchase cost determined using the FIFO (first-in, first-out) method, and realisable value based on market trends.

Receivables

The receivables are recognized in the consolidated financial statements according to amortised cost, taking into account the time factor and the estimated realizable value. The amortised cost is not applied when the effects are irrelevant, or when transaction costs, commissions paid between the parties and any other difference between initial value and value at maturity are minor or if the receivables are short term (i.e., with a maturity of less than 12 months).

Trade receivables with maturity beyond 12 months from the time of initial recognition, without payment of interest or interests significantly different from market interest rates, and its revenues, it appears initially to the value determined by discounting the future cash flows to the market interest rate.

The difference between the value of the initial recognition of the receivables so determined and the value completed is recognized in the Income Statement as financial income along the credit fiscal year using the effective interest method.

The value of the receivables, as determined above, is adjusted, where necessary, by a specific provision for impairment exposed to direct reduction of the value of credits in order to adapt them to their estimated recoverable amounts. The amount of the write-down at the reporting date is equal to the difference between the book value and the value of the estimated future cash flows, reduced by the amounts that you expected not going to cash, discounted at original effective interest rate of the receivable. The amount of the write-down is recognised in the income statement.

Receivables in currencies different to the Euro were recognized at the exchange rates in effect on the date in which the relative transactions took place. Such receivables were adjusted to the interest rate of the end of the fiscal year and any profits or losses were allocated to the Income Statement (in the line item C17 bis). Any net profits on exchange rates is allocated to a specific reserve that is non-distributable until they are realized.

Financial assets not held as fixed assets

This line item includes all assets that are short-term investments in financial assets or which are not to be used as long-term investments for the business.

Such short-term financial assets, consisting of equity investments in non-consolidated subsidiaries, are recognized at cost or at their presumable realizable value (calculated on the basis of the estimated realizable value at the time of liquidation) if lower, with the recognition of an impairment. The impairment is eliminated, within the limit of cost, if the basis for such impairment ceases to exist.

Cash at bank and on hand

Cash at bank and on hand is recognized at nominal value.

Accruals and deferrals

Shares of costs and proceeds, common to two or more fiscal years, are recognized in these line items, in accordance with the standard of accrual-based accounting.

LIABILITIES

Shareholders' equity

This line item represents the difference between all of the asset and liability line items calculated according to the standards set forth herein, and includes contributions made by shareholders at the time of incorporation and subsequent increases of capital, reserves of any kind, profits and losses of prior fiscal years carried forward and the consolidated result of the the fiscal year July 1, 2021 – June 30, 2022.

Provisions for risks and charges

These have been allocated to cover losses or liabilities that are certain or likely to occur, the amount of which or date when they will occur, however, could not be determined as of the date of the close of the fiscal year. Any contingent liabilities are recorded in the financial statements and recognized in the provisions for risks and charges caption if it is deemed more likely than not they will occur and the amount of the relative cost can be reasonably estimated.

In preparing the consolidated financial statements, risks and losses were considered in the commentary, even if they became known after the close of the fiscal year if their accrual basis is referable to the annual financial statements, and specific allocations were made to future risk and charges if required (e.g. the settlement after the end of the fiscal year of a lawsuit existing at the Balance Sheet date for an amount other than that foreseeable at that date).

Contingent liabilities that are only possible are indicated in the Explanatory Notes without any allocations being made.

Provisions for employee severance indemnities

Reserve for employee severance indemnities reflects the sums accrued at the end of the fiscal year on behalf of employees, in conformity with contractual regulations and outstanding legislation. Such liability is subject to revaluation using indexes. It is noted that starting from January 1st 2007, the Finance Law and the relative implementing decrees modified the severance pay regime, among which the employee's choice with respect to the use of accrued severance pay (to complementary pension funds or to the "Treasury Fund" managed by INPS). The amount recognized in the financial statements is therefore net of the payments made to the cited funds.

Payables

Payables are measured at amortised cost, taking into account the time factor. Amortised cost is not applied to debts if the effects are irrelevant. The effects are considered irrelevant to the liabilities (i.e., with a maturity of less than 12 months). For the amortised cost please refer to the accounting policy related to "Receivables".

Payables in currency not adhering to the Euro are recognized at the exchange rates in effect on the date the relative transactions took place. Such payables are adjusted to the exchange rate at the end of the fiscal year and any profits and losses are allocated to the fiscal year Income Statement (in line item C17 bis). Any net profit on exchange rates is allocated to a specific reserve that is non-distributable until it is realized.

Payables and receivables to/from football clubs

Among payables and receivables, we note those deriving from the purchase and sale of rights to the registrations of football players of the team of origin or destination. Specifically, if the team of origin or destination belongs to a foreign federation, the counterpart is the club that sells or buys the right; if instead the team of origin or destination of the football player belongs to the Italian Football Federation, and therefore the purchase contract or transfer of the right is subject to ratification by the National League of Professionals, the settlement of the consideration referable to the fiscal year takes place through the account "Lega c/Trasferimenti", which acts as a "clearing house" for all of the transfers among the Italian football clubs.

Receivables and payables are measured according to the amortised cost, taking into account the time factor and the estimated realizable value. The amortised cost is applied only to receivables and payables with maturities greater than 12 months and when the effect is significant, and are initially recognised at the value determined by discounting the future cash flows to the market interest rate; the difference between the value of initial recognition and the nominal value is recognized in the income statement as financial income on the duration of the credit/debit using the effective interest rate method. The counterpat is accrued in the intangible assets as an adjustment of the value of the "Player registration right" in the case of purchase of the Player Registration Right and in the income statement as an adjustment of the capital gain/loss in case of sales of the Player Registration Right.

The payables or receivables from football clubs belonging to the National Professional League are accounted as already described towards the counterpart Lega Seria A because subject to the compensation line, instead in the explanatory notes are detailed in reference to each parties.

Receivables and payables to football clubs which are not subject to compensation line item "Lega c/Trasferimenti" are indicated as towards each teams.

INCOME STATEMENT

Costs and revenue

Costs and revenues are shown in the consolidated financial statements according to accounting standards of prudence and on an accrual basis, with recognition of the relative accruals and deferrals.

The revenue from matches and from the licensing of the relative television rights are recognized with reference to the effective time of the service (when the match is played); season tickets are deferred on an accrual basis using the same criteria.

Sponsorship revenues are recognised progressively over the term of the contract when the service has actually been rendered.

Revenue from licensing, advertising and other services measured on an accrual basis.

Revenue from sales of goods (merchandising) is measured at the time of the transfer of ownership, which is normally when the goods are delivered or shipped.

Operating costs are allocated to the relative Income Statement.

The costs related to the bonuses to which the football players, coaches and technical staff are entitled for achieving predetermined sports results and bonuses from sponsors are allocated to the relevant Income Statement, upon the occurrence of the sports event to which they are related.

Financial income and expenses are allocated to the relevant Income Statement.

Capital gains and capital losses deriving from the transfer of the multi-year rights to the registrations of football players are respectively classified in revenue and costs from characteristic management and are calculated as the difference between the agreed upon price and the net accounting value on the transfer date or without the predictable contract date, on the certificate of enforceability placed on the contracts by the Serie A National League of Professionals for national transfers, and on the date of the ITC issued by FIGC for international transfers.

In relation to the loan contracts with an obligation to buy, the value of the multi-year rights to the registrations of the football players is adjusted to the agreed price for the sale (including the amount of the redemption and the loan fees) at the time when the condition for redemption becomes highly probable or realized. For further details please refer to the Accounting Principle outlined above regarding the "Player registration rights".

If delays to customers (revenues) or to the Group (costs) are granted, not at normal market conditions without interest maturity, the amount that will be collected or paid is discounted. The difference between current value and amount collected or paid represents, respectively, a financial income or a financial expense recognized on an accruals basis over the maturity of the debt and the credit.

It should be noted that, following the suspension of competitive activities, which took place in March 2020, and the subsequent resumption of the 2019/2020 football season, which took place in June 2020, with the 2019/2020 football season ending on August 31, 2020 and the start of the next one on September 1, 2020, the 2020/2021 fiscal year was characterised by a zero balance in ticketing revenues and season ticket revenues for home matches, following the fact that these were played behind closed doors or with access limited to 1,000 spectators, due to the restrictive measures imposed by the federal institutions and authorities due to the continuation of the Covid-19 pandemic, offset, however, by the recognition of revenues from TV rights and sponsorships, previously deferred to September 1, 2020. However, this was offset by the recognition of revenues from TV rights and sponsorships, previously deferred to June 30, 2020 and recognised, following the postponement and conclusion of both national and international competitions for the 2019/2020 football season, in the 2020/2021 fiscal year, together with a portion of the costs of FIGC registered personnel, making this fiscal year not comparable with the same period of last fiscal year from the standpoint of certain revenue and cost components.

Current taxes

Taxes are set aside on an accrual basis; they therefore represent the allocation for taxes that have been or are to be paid for the fiscal year, calculated according to tax rates and outstanding law.

It is also noted that the Parent Company has an outstanding tax consolidation agreement with its subsidiaries, the details of which are provided in the paragraph "Taxes".

Deferred tax asset and liabilities

Deferred tax asset and liabilities appear if the individual line items are recognized for tax fiscal year in different fiscal year than their accounting recognition. Specific allocations to funds for deferred taxes are made for the temporary differences. Deferred tax asset including the ones arising from fiscal losses, are recognized as assets if there is reasonable certainty for future taxable income sufficient to recover the losses, considering the provisions of Law no. 111/2011, converted by Law Decree no. 98/2011 called *Urgent provisions for the financial stabilization of the Country*.

The uncertainty of the Company's future profitability, also confirmed by the undertaking of Suning Group to guarantee financial stability until there are stable conditions of autonomous economic balance, means that it is not opportune from a prudent standpoint, as in prior fiscal years, to have pre-paid taxes on temporary differences and fiscal losses. Both are calculated applying the tax rate in force on the date of the calculation.

It should be noted that the consolidated financial statements reflect the calculation of current and deferred taxation with the use of the tax rate of 24% starting from July 1, 2017.

Other information

Use of estimates

The preparation of the consolidated financial statements requires Management to make estimates and assumptions that have effects on the values of the assets and liabilities of such consolidated financial statements and on the information related to contingent assets and liabilities as of June 30, 2021. The estimates and assumptions used are based on experience and other factors considered to be relevant. The final results might therefore be different from such estimates. The estimates and assumptions are reviewed periodically and the effects of each variation made to them are reflected in the Income Statement in the fiscal year in which the review of the estimate is made if the review has effects only on such fiscal year, or even in the following periods if the review has effects both in the current period as well as in future periods. Estimates are mainly used to recognise bad debt provisions, to determine provision for risks and charges and to assess the recoverable amount of intangible and tangible assets.

With reference to the estimate of the bad debt provisions and provision for risks and charges, the consolidated financial statements reflect the estimate of the liabilities based on the best knowledge of the solvency status of the counterparties and the progress of the disputes, using the information provided in the legal and tax consultants who assist the Group and taking into account existing contacts with counterparties. The risk estimate is subject to the uncertainty inherent in any estimate of future events and the outcome of the litigation procedure and it can not be excluded that in future years there

may be charges that can not be estimated, also in view of the general deterioration in the solvency of markets, especially the Asian one, also as a result of the effects of the Covid-19 pandemic, and the climate of instability related to the Russian-Ukrainian conflict, on customers' operations and their ability to generate cash. In particular,

- with reference to receivables due from the Chinese companies Beijing Imedia Advertising Co, Ltd (better known as 'iMedia'), a Chinese sports marketing agency, signed during the financial year 2017/2018 with an original deadline of June 30, 2024 (but terminated earlier on June 28, 2021), which provided for an irreversible signing fee of Euro 23.1 million and annual fees of Euro 25 million, recalls that, in September 2021, iMedia, by letter addressed to the subsidiary Inter Media, had communicated, that because of the negative impacts deriving from the continuation of the pandemic Covid-19, to have such expectations that it allowed it to pay only partially its debt towards the same, equal to Euro 55,892 thousand to June 30, 2021. Consequently, the Directors of the Group, in order to adjust the above-mentioned creditor position to its presumed realisable value, had set aside at June 30, 2021 a provision for the impairment of receivables amounting to Euro 31,537 thousand, also taking into account the effect of discounting it for the instalment and payable over 12 months. The first instalment due in September 2021 had been duly paid, while the instalment due on March 31, 2022 in the amount of Euro 1 million was only paid in the amount of Euro 250 thousand due to the counterparty's difficulties related to the Covid-19 pandemic. The Directors of the subsidiary Inter Media, despite several reminders, both directly and through their legal advisors, following the aforementioned partial payment and the assessment of the counterparty's solvency, proceeded to entirely write-down this residual credit position for an amount of Euro 23,104 thousand, considering it to be of remote collectability;

- with reference to the sponsorship agreement signed with Zytara Labs - Digitalbits, as of the date of preparation of these financial statements, (i) the invoices relating to the performance bonuses accrued following the sports results achieved by the Parent Company's First Team in the 2021/2022 football season, amounting to Euro 1.6 million, were overdue and not yet collected, also taking into account the difficulties encountered by the counterparty in the performance of the contract, the Company has already written down the aforesaid credit position in its entirety when preparing the financial statements for the year ended on June 30, 2022, despite the fact that Inter has in any case taken steps to recover the same in full, (ii) in addition to the first instalment for the 2022/2023 football season by way of Jersey Sponsor - Main for Euro 8 million, the latter entirely covered at June 30, 2022 by deferred income recorded for a similar amount under liabilities in the Balance Sheet.

With reference to the evaluation of the recoverable value of intangible assets, the Directors, for the purpose of the preparation of the consolidated financial statements as of June 30, 2022, carried out an impairment test, to verify the recoverability of the values of the FC Internazionale Group's assets as of June 30, 2022, using the 2023/2027 economic-financial projections prepared by the Group's Directors (hereinafter, alternatively, the "Group Forecast Data"). The Group Forecast Data used for the impairment test are based on assumptions, characterised by inherent uncertainty with reference to both macroeconomic and sector conditions, connected, inter alia, to the effects of the Covid-19 pandemic, to an exacerbation of the climate of instability connected to the Russian-Ukrainian conflict as well as the continuation of a general inflationary context and an increase in interest rates, and to specific conditions related to the Group, largely dependent on sports results, the achievement of which, as of today, cannot be foreseen, could lead to results that differ from those estimated; this could lead to the need to write down the intangible and tangible fixed assets recorded in the consolidated financial statements, for which, however, no objective prerequisites can be foreseen at present.

With reference to the general forecasts of the Financial Fair Play, following further discussions, a Settlement Agreement was signed between the parties on August 23, 2022. The agreement will be applied not only for the football season ending on June 30, 2022, but also for the following seasons up to and including the 2026/2027 season and provides for the "Football Earnings" indicator, i.e. the operating result from the consolidated financial statements adjusted by certain components (e.g. costs incurred for the youth sector, women's football, etc.). The agreement provides for a certain and unconditional penalty of Euro 4 million, recorded in the financial statements for the fiscal year ended on June 30, 2022 in the item "Provision for risks and charges", and a further potential penalty of a maximum of Euro 22 million suspended depending on the observance of "Football Earnings" target values in the years in which the agreement is in force. These potential penalties will be withheld by UEFA to offset the premiums recognised for the First Team's participation in European competitions.

In light of the most recent economic-financial projections elaborated by the Directors for the 2023/2027 time horizon, updated taking into account events that occurred after the date on which the forecasts were shared with UEFA for the purposes of signing the Settlement Agreement, the Group has therefore proceeded to set aside the additional amount, equal to Euro 4.8 million, in the item "Provision for risks and charges", as the best estimate of the potential penalty due as a result of the Settlement Agreement stipulated. The forecasts on which the value of the sanction was determined are characterised by inherent uncertainty as they are influenced by factors beyond Management's control and could therefore be realised to a different extent than expected, leading to adjustments to the value of the sanctions allocated to date in the consolidated financial statements.

From a sports point of view, moreover, the Group F.C. Internazionale, already for the 2022/2023 and 2023/2024 fiscal years, will be subject to restrictions in terms of limitations on the registration of new players in the UEFA lists, in addition to potential future restrictions for the following seasons in the event of non-compliance with "Football Earnings" target values.

Agreements with the RAI Group, Infront and Dazn

On June 24, 2011, the Parent Company signed a contract with the Rai for the acquisition, effective from June 30, 2011, of the Rai historical archive of images and videos of the football team (historical archive - material and rights) and the historical archive of broadcasts on Inter Channel from 2000 to 2008.

An agreement was simultaneously signed with the Rai which settled (i) a transaction for prior use of the library, (ii) the thirty-year right to use the library up to 2041, and also (iii) the right to renew the contract from June 30, 2041 to June 30, 2071. In the financial statements, in relation to this transaction, are recognized deferred income for Euro 10,444 thousand relating to the

the portion of revenue related to future fiscal years for which invoices and the related receivables have been already issued/paid.

On May 2, 2011, the Parent Company entered an agreement with Infront Italy S.r.I ("Infront"), a leading national and international media company, which digitalised, catalogued and organised the images referred to in the Rai contract for the seasons from 2011/2012 to 2015/2016. On June 21, 2012, an *addendum* to the original contract with Infront S.r.I. was signed which extended the deadline to the 2016/2017 and 2017/2018 football seasons. In addition to commercialization of the archive, the agreement also includes the commercialization of the images of training sessions, interviews and press conferences, the *media packages* and electronic games, and also the audio-visual productions of Serie A Championship and Coppa Italia matches. On May 13, 2014, a further amendment was signed, which extended the duration of the contract to the 2020/2021 season, with a corresponding increase in the fees. This amendment was effective from July 1, 2014. On February 14, 2022, a new agreement was formalised for the licensing of archival images and access, filming and broadcasting rights for the 2021/2022 sports seasons. With reference to the agreement, revenues of Euro 1,250 thousand for each of the aforementioned sports seasons. With reference to the agreement, revenues of Euro 1,250 thousand and receivables to customers for Euro 763 thousand, fully collected in July 2022, are recorded in this balance sheet.

Finally, during this fiscal year, the Group has negotiated with Dazn Limited, a global broadcaster in the sports live streaming market, for the 2021/2022, 2022/2023 and 2023/2024 sports seasons - digitization and marketing in Italy, Vatican City and San Marino, the archived contents of the matches played by the First Team (male and female) of Serie A of the Parent Company and Inter Tv for an annual fee of Euro 5 million, entirely collected on June 30, 2022 the amount of competence of the sports season 2021/2022.

Debt refinancing

On December 21, 2017, after the change from a limited liability company into a joint-stock company, the subsidiary Inter Media issued and placed a senior institutional secured bond for an amount of Euro 300 million, with maturity date December 31, 2022 and fixed rate at 4.875% (hereinafter also "Bond Loan" together with the new Euro 75 million issue tranche discussed below) and, at the same time, F.C. Inter has signed a revolving credit facility ("RCF") for a maximum amount of Euro 50 million; the proceeds of the Bond and the RCF were used for i) fully repaying of the Goldman Sachs International and Unicredit Ioan equal to Euro 202 million ii) generating of new financial resources to be used for the ordinary activities of the Inter Group. On July 31, 2020, in order to finance the ordinary activities of F.C. Internazionale Milano Group and mitigate the impact of the effects of the Covid-19 pandemic, as better described above, the subsidiary Inter Media issued and placed with institutional investors an additional tranche of senior secured bonds for a total amount of Euro 75 million at an issue price of 93% with maturity and fixed rate aligned to the previous issue and placement. The Bond Loan was guaranteed by the cash flows deriving from sponsorship agreements and media contracts signed by the Company as well as the cash flows deriving from the proceeds of the UEFA rights and the television rights of the Serie A and Coppa Italia, assigned by FC Inter to the Company similarity to the provisions of the previous Ioan contact. It should also be noted that, as part of the Intermediation Bond Loan agreement, FC Inter and Inter Brand pledged the shares relating to the share capital held in Inter Media.

Finally, as previously mentioned, on February 9, 2022, the Group completed the issuance of a senior bond ("New Bond Loan"), guaranteed, non-convertible and not subordinated for a total online capital amount of Euro 415 million, at an issue price of 100% of the nominal value, with an annual interest rate of 6.75%, maturing on February 9, 2027, intended for subscription only to institutional investors. This issue was mainly aimed at the early refinancing of the Group's financial debt, whose maturity was set at December 31, 2022, consisting both of the Company's two previous bond loans. The outstanding amount at the date of maturity was Euro 278.2 million and Euro 72.7 million respectively, as well as from the revolving financing facility, headed by the Parent Company, whose outstanding amount at the date of extinction was Euro 50.5 million. The New Bond Loan is guaranteed by the same collateral as the previous Bond Loan.

Sponsorship agreements

During the fiscal year ended on June 30, 2022, the Group benefited from income from various sponsorship contracts, signed in previous fiscal years with Nike ("Technical Sponsor" of the jersey), Lenovo ("Official Sponsor – Back" of the jersey), Volvo, Trenitalia, Locauto, Esprinet, Manpower, EA Sports (terminated on June 30, 2022 and replaced from the 2022/2023 football season by Konami), Snaipay, StarCasino, LD Sports, Pepsico, F.Ili Beretta, La Molisana and Technogym.

With reference to the "Official Sponsor", during July 2021, the subsidiary Inter Media signed an agreement with Socios.com, for the 2021/2022 football season, for a consideration of Euro 16 million as Global Main Jersey Partner and from the 2022/2023 season to the 2024/2025 football season, for an annual consideration of Euro 1 million, as Global Sponsor Advertising Rights.

In addition, in September 2021, the subsidiary Inter Media signed a new partnership with Zytara Labs LLC, as the new Official Global Cryptocurrency and Sleeve Partner, for the 2021/2022 football season for a consideration of Euro 5 million

and a variable consideration linked to the achievement of the sporting performances of the Parent Company's First Team, and from the 2022/2023 football season to the 2024/2025 football season, for a total consideration of Euro 85 million, as Global Main Jersey Partner, in addition to variable consideration, linked to the achievement of the sporting performances of the Parent Company's First Team. For further details, please refer to the section "Other Information - Use of estimates".

Moreover, with the start of the 2021/2022 football season, despite the continuing effects of the Covid-19 pandemic, new commercial partnerships were launched with Pirelli, Boe United Technology Corporation, Lifebrain, Mastercard, Moncler, SBK, Simfed, Panasonic and ISG.

It is also recalled that the Leading Shareholder has contributed significantly to the development of sponsorships in Asia and in particular, on September 1, 2016, was signed with the company belonging to Suning Group, Jiangsu Suning Sports Industry Co., Ltd, a contract for i) the sale of the renaming rights of the sports centre of Appiano Gentile (Suning Sports Center in memory of Angelo Moratti) and the training center of the youth sector (Suning Training Center in memory of Giacinto Facchetti), ii) the rights for the Suning brand on the official training kits, LEDs, backdrop, including VIP hospitality and dedicated tickets for home matches and iii) the co-branding rights on the Asian territory. The contract, originally expiring in June 2020, provided for an irreversible initial signing fee of Euro 25 million and fixed annual fees of Euro 16.5 million until expiry. On December 21, 2017, at the time of the refinancing transaction concluded with the placement of the Bond, an amendment was signed regarding the Naming Rights of the aforementioned contract, whereby the distribution of the consideration provided for between the Parent Company and Inter Media was redefined, equal to 47% and 53% respectively. During the 2019/2020 fiscal year, the consideration was subject to revision, no longer envisaging the variable part and redefining the fixed consideration for a total amount of Euro 16 million, against an extension of the contract deadline to June 30, 2022. Finally, in September 2021 the fixed contractual consideration, following the Group failure to provide certain contractually envisaged services, caused by the protracted effects of the Covid-19 pandemic also in the 2020/2021 football season, was subject to a further revision, corresponding for the 2020/21 season to an overall reduction of Euro 5.4 million and for the 2021/2022 season to a reduction of Euro 4.5 million. Consequently, in light of the change, with reference to this contract the Group recorded revenues for the year totalling Euro 11.5 million.

Lastly, with reference to the receivables accrued by virtue of the sponsorship agreement signed with the Chinese company Beijing Imedia Advertising Co., Ltd. (better known as 'iMedia'), please refer to what was previously stated in the paragraph "Other Information - Use of estimates".

The net residual value of the line item "Industrial patents and similar intellectual property rights", amounting to Euro 95 thousand at June 30, 2022, amounting to Euro 92 thousand, mainly refers to rights to the images (photos and video) of the Intercampus projects throughout the world.

The line item "Concessions, licenses and trademarks" mainly derives from the allocation of the F.C. Inter trademark as the result of the merger surplus in the financial statements as of June 30, 2007 due to the incorporation of Inter Capital S.r.I. in F.C. Internazionale Milano S.p.A. In allocating the above surplus amount, reference were made by using the result arose at the time of the assignment of the F.C. Inter trademark to Inter Brand S.r.I.

It should be noted that during the fiscal year ended on June 30, 2021, the Group availed itself of the option set forth in Article 110 of Legislative Decree 104/2020, converted into Law No. 126 of October 13, 2020, and, supported by an independent expert, proceeded to revalue the "INTER" brand and the "Libreria Storica", recognised among intangible assets, for a total of Euro 212,141 thousand. The revaluation was carried out by intervening only on the historical cost, entailing for the "INTER" brand an extension of the amortisation period for a further 20 years, considered in any case consistent with the effective residual useful life of the revalued asset, while for the "Libreria Storica" amortisation is calculated on a straight-line basis for 20 years from the date of revaluation occurred in the financial year, within the time limits of effectiveness of the legal protection of the revalued asset and consistent with what is described in the appraisal.

Impairment test

The Directors, in accordance with OIC 9, in order to assess the recoverable value of the assets, including intangible fixed assets, recognised in the Group's consolidated financial statements, carried out an impairment test as of June 30, 2022 with the assistance of the independent expert.

In particular, it should be noted that the impairment test was performed by the Directors with the support of an external consultant using the Group's consolidated financial statements as of June 30, 2022 and updated economic-financial projections for the period 2023/2027 ("Group Forecast Data"). The impairment test was carried out through the use of the Discounted Cash Flow Method, i.e. the valuation of the value of the company through the discounting of the cash flows deriving from the aforementioned economic-financial projections, discounted using the WACC (Weighted average Cost of Capital) rate of 8.98% (7.56% as of June 30, 2021), determined using a risk free rate of 2.78%, a market risk premium of 6.00% and a size premium of 3.02%. This impairment test was prepared by the Group's Directors with the support of an independent specialist and approved by the Directors together with the Group's Forecast Data and the approval of the consolidated financial statements on September 28, 2022.

The assumptions adopted in the projection of the Group's revenues and related cash flows take into consideration (i) revenue values consistent with the forecasts of the First Team's sports results that foresee, with reference to the European competitions, for all the years of the plan the elimination in the UEFA Champions League ("UCL") group stage, with the subsequent transition to the UEFA Europe League ("UEL") and elimination in the quarter-finals of the same competition (ii) a reduction in sponsorship revenues for the 2022/2023 season mainly due to the current uncertainty related to the official sponsor and the subsequent positive trend for the following seasons, thanks to the more favourable negotiation of certain sponsors expiring in the period of the Group's Forecast Data projections; (iii) revenues from ticketing and/or season tickets consistent with the return to full capacity starting from the 2022/2023 football season; (iv) merchandising trends consistent with the new direct management business model and (v) operating cost trends estimated in line with the Group's current organisational logic.

The long-term growth rate used in the terminal value is 2.0%, corresponding to the expected inflation rate in Italy in 2027 (*source: International Monetary Fund*), while changes in working capital were assumed to be zero, with depreciation equal to the investments made.

The result of the test showed a recoverable value that is higher than the book value.

In order to perform stress tests with reference to the impairment test, the directors carried out sensitivity analyses using changes in certain variables connected to certain assumptions such as the cancellation of the expected growth in media rights revenues, the reduction in the growth of certain sponsorship revenues, the postponement of the reduction in the number of players' wages by one football season and the cancellation of the growth in ticket pricing over the entire time horizon of the plan. Only if the negative scenario hypothesised in relation to the cancellation of the expected growth in media rights revenues were to occur, would the impairment test show a loss of Euro 27.1 million, which in any case represents a stress test scenario currently considered unlikely, with the consequent no need to record impairment losses. None of the other sensitivity hypotheses individually show the need for impairment.

Finally, it should be noted that the WACC level for which the recoverable value is equal to the book value is 11.42%, confirming the non-existence of potential impairment indicators from the impairment test.

It should be noted, however, that the Directors cannot exclude that a worsening of the Covid-19 pandemic, together with a worsening of the effects of the geopolitical situation connected with the Russian-Ukrainian crisis, as well as the continuation of a general inflationary context and an increase in interest rates, could lead to results that differ from those estimated; this could determine the need to write down the intangible fixed assets or goodwill recorded in the financial statements, for which, however, no objective grounds can be seen at present. For this reason, the Directors will monitor the development of the aforementioned forecasts, in order to promptly reflect any impairment losses when they become probable.

The item "Concessions, licenses and trademarks" therefore refers exclusively to software programs in use by the Company and to the sport title of A.S.D. Femminile Inter Milano, acquired during the last 2018/2019 season for the participation in the Women's Youth Championship, in compliance with the applicable regulations issued by the Lega Nazionale Professionisti and the FIGC.

Construction in progress as at June 30, 2022 mainly refer to the extraordinary maintenance done at the G. Meazza Stadium approved and/or which will be approved by the City of Milan, whose costs on the basis of the concession for the use of the Stadium will be offset with a portion for an equal amount of the licensing fees due to the City of Milan for the use of the Stadium, which are recognized in the line item "Trade payables" in the amount of Euro 31,002 thousand. An initial offset, related to the years ranging from 2000 through 2005, in the amount of Euro 8,173 thousand was made in the month of February 2010; a second offset, related to the years ranging from 2000 through 2010. At the time of drafting these consolidated financial statements, the parties, respectively the Municipality of Milan and the two Clubs (F.C. Internazionale and A.C. Milan), are in the process of defining the compensations for the years 2011 to 2020.

The line item "Capitalization of Youth Programme costs" refers to the investments incurred specifically to manage and develop the youth sector ,amortized for a period of five years, according to what is provided by outstanding federal regulations. The increases refer to the capitalization of costs related to the management of the activity of the training camp capitalized in accordance with Article 86 N.O.I.F. It should be noted that on November 12, 2021, the FIGC and Co.Vi.Soc. published the 2021 edition of the "Raccomandazioni Contabili FIGC", applicable, at the latest, from the fiscal year following the one in progress at December 31, 2021 (and therefore for the Company this means from July 1, 2022). These new recommendations provide, inter alia, for the inadmissibility of the capitalization of youth costs. The Group intends to apply these new recommendations as of July 1, 2022. For an analysis of the nature of the costs of the training camp capitalized during the fiscal year, reference is made to the following specific note of the Income Statement commenting on the line item "Capitalised of Youth Programme costs"

The recoverability of the recognition value of the costs of Youth Programme was measured by the Directors with reference to the offers of registration systematically received, which more than remunerate the capitalised cost.

In particular, this worsening of Euro 24,901 thousand compared to the comparative period as of June 30, 2021, is , due to the combined effect of the increase in current assets (mainly due to the increase in trade receivables and receivables from parent companies) and the increase in current liabilities (mainly due to the increase in tax payables subject to instalment plans, amounting to Euro 44. 097 thousand, and the increase in other payables, amounting to Euro 14,480 thousand, partially offset by the decrease in payables to specific sector entities, amounting to Euro 5,931 thousand).

Lastly, it should also be noted that trade payables include payables to the Municipality of Milan for Euro 31,002 thousand, which will be offset by the value of the improvements made to the Meazza Stadium recognised under "Fixed assets under construction and advances" for Euro 26,468 thousand and sustained by the Group on behalf of the Municipality.

During the fiscal year, the Group posted losses of Euro 140,056 thousand (Euro 245,579 thousand at June 30, 2021), an improvement over the previous fiscal year mainly due to the effect of capital gains from the sale of the rights to the performances of the players Achraf Hakimi to Paris Saint Germain and Romelu Lukaku to Chelsea and to ticket sales. Consolidated shareholders' Equity at June 30, 2022 was negative for Euro 86,605 thousand, with cash and cash equivalents of Euro 139,184 thousand.

It should also be noted that, despite the conversion into capital of shareholders' loans and the benefits of the revaluations pursuant to the law of last fiscal year, the Parent Company also showed a negative net equity of Euro 127,308 thousand at June 30, 2022, amounting to Euro 36,280 thousand. However, the Shareholders' Meeting held on October 28, 2021 approved the financial statements for the fiscal year ended on June 30, 2021 with a final loss of Euro 214,412,630, resolving to postpone the replenishment of this loss until the fifth fiscal year following the one in progress as of December 31, 2020 (or, for the Parent Company, to the fiscal year ending on June 30, 2026), as provided for by art. 1, paragraph 266, of Law No. 178 of December 30, 2020, effectively allowing the Parent Company's shareholders' equity to remain positive while complying with the capitalisation parameters set forth in the Italian Civil Code ex 2446 and 2447. It should also be noted that Decree Milleproroche no. 228/2021 (in force as of December 31, 2021) converted with amendments into Law no. 15 of February 25, 2022, in Article 3, paragraph 1-ter (extension of terms on economic and financial matters) extended to losses that emerged in the fiscal year in progress as of December 31, 2021 the "sterilisation" discipline originally provided for by D. Law No. 23 of April 8, 2020, converted with amendments by Law No. 40 of June 5, 2020, thus recognising the possibility for the Shareholders' Meeting to postpone the settlement of such loss by the fifth fiscal year following the one in progress as at December 31, 2021 (or, for the Parent Company, to the fiscal year ending on June 30, 2027). The Parent Company, considering the loss for the fiscal year accrued as of June 30, 2022 and the estimate of further losses in the fiscal year 2022/2023, upon approval of the financial statements for the 2021/2022 football season, intends to utilise this option to defer the immediate adoption of the obligations set forth in Articles 2446 and 2447 of the Italian Civil Code, deferring the loss of Euro 127,308 thousand for the fiscal year ended on June 30, 2022 in accordance with the aforementioned legal provisions. The total amount of losses deferred to the next five years is approximately Euro 342 million.

Please refer to the section "Going Concern" for considerations on the use of the going concern assumption in the preparation of these consolidated financial statements.

Please note that the minimum capitalisation limits set forth in Article 2447 of the Italian Civil Code are not applicable to the consolidated financial statements.

Bond Loan

As described in the section "Other information - Debt refinancing" the subsidiary Inter Media on February 9, 2022, issued a New Bond, *inter alia*, aimed at the early termination of the previous Bond placed with institutional investors, of December 21, 2017 and July 31, 2020, for a nominal amount of Euro 300 million and Euro 75 million at an issue price of 93%, maturing at December 31, 2022 and a nominal fixed rate at 4.875%. The New Bond Loan, senior, guaranteed non-convertible and not subordinated, issued and placed for an amount of Euro 415 million, with an annual interest rate of 6.75% and maturing on February 9, 2027, as the previous issues, has as a guarantee the liquidity flows deriving from sponsorship *agreements and media contracts* signed by the subsidiary Inter Media as well as the flows from the proceeds of the UEFA rights and the television rights of Serie A and Coppa Italia generated by the Parent Company.

The repayment schedule for the principal in six-monthly instalments is shown below. It starts from June 30, 2024, after a grace period with payment of the interest-bearing line only:

- Euro 3.57 million on June 30, 2024;
- Euro 3.69 million on December 30, 2024;
- Euro 3.82 million on June 30, 2025;
- Euro 3.95 million on December 30, 2025;
- Euro 4.08 million on June 30, 2026;
- Euro 4.22 million on December 30, 2026;
- Euro 391.67 million by 9 February 2027.

The total debt is recorded in the financial statements net of ancillary costs, recorded according to the amortized cost criterion, for an amount equal to Euro 407,945 thousand, which represents the current value of future cash flows, less transaction costs equal to Euro 7,567 thousand. The effective interest rate equal to 7,3318% represents the internal rates of return (IRR), constant over the duration of the Bond, which make the present value of future cash flows deriving from the total debt equal to their initial recognition value (thus including the effect of transaction costs). As a result, it should be noted that the Income Statement is not debited with the interest expense paid at maturity to the extent of the nominal interest rate of 6,75% but is integrated on the basis of the effective interest rate, which corresponds to the implicit financial burden of the New Bond Loan.

The interest instalment due on June 30, 2022, amounting to Euro 10,972 thousand, was duly paid.

The New Bond Loan also provides for compliance with two financial parameters (covenants) respectively the Debt Service Coverage Ratio and the Pro-forma Debt Service Coverage Ratio with reference to the subsidiary Inter Media's results. In brief, the first represents the ratio between the net cash flows from operations and the sum of financial charges and capital payments made in the 12 months prior to the calculation date (or alternatively, if 12 months have not passed since the Bond was stipulated, the period between the stipulation date and the calculation date). The second, on the other hand, is calculated using the same factors, determined on the estimated values - as reported in the budget - for the 12 months following the calculation date. The aforementioned parameters on the basis of the calculations carried out as of June 30,

2022 are respected; similarly, on the basis of the projections available to date, it is estimated that the same will be respected with reference to the next maturities over the next 12 months, taking into account the commitment to financial support by the Suning Group, which makes it possible to neutralize the existing elements of uncertainty, to date in any case not estimable, also with reference to the effects on the generation of cash flow deriving from the continuation of the Covid-19 pandemic and the Russian-Ukrainian conflict as well as the inflationary environment and rising rates mainly from the beginning of the year 2022.

For the sake of completeness of information, it should be noted that there are obligations due beyond the next financial year for the entire debt amount in the financial statements at June 30, 2022, while there are none due beyond 5 years.

For further information on the evolution of the bond loan during the fiscal year, please refer to the consolidated Cash Flow Statement.

As indicated in the section "Other Information - Agreements with the Rai Group, Infront and Dazn", the portion of "Rai Archive" deferred income, amounting to Euro 10,444 thousand at June 30, 2022, represents the deferral of income pertaining to future fiscal years for the marketing of rights to use the historical library.

Deferred income also mainly refers to: i) for Euro 13,920 thousand to season tickets subscribed for the 2022/2023 football season, ii) for Euro 24,493 thousand to revenues from sponsorships, related to the advance invoicing, as contractually provided for, of certain sponsorship contracts (including the Official Sponsor for the 2022/2023 season, Zytara Labs - Digitalbits, for Euro 8 million), whose accrual is referred to the 2022/2023 football season, iii) for Euro 1,210 thousand related to revenues related to merchandising and licensing activities pertaining after June 30, 2022, iv) for Euro 120 thousand related to revenues from Inter Academies and v) for Euro 70 thousand related to revenues from friendly matches, already invoiced, but pertaining to events that took place in July 2022.

At June 30, 2022 there are deferred income for Euro 11,982 thousand with expiry beyond 12 months, of which Euro 8,764 thousand with expiry beyond 5 years.

Analysis of the line items of the Income Statement

For the sake of clarity, as previously illustrated in the section "Measurement criteria and accounting standards - Costs and revenues", it should be noted that following the suspension of the club's competitive activities, which took place in March 2020, and the subsequent resumption of the same which took place in June 2020, with the 2019/2020 football season ending on August 31, 2020, the fiscal year ended on June 30, 2021 was characterised by a zero balance in ticketing revenues and season ticket revenues for home matches, following the matches played behind closed doors or with access limited to 1,000 spectators, due to the restrictive measures imposed by the Federal Institutions and Authorities due to the continuation of the Covid-19 pandemic. However, this cancellation was offset by the recognition of revenues from TV rights and sponsorships, previously deferred to June 30, 2020 and recognised, following the postponement and conclusion of both national and international competitions for the 2019/2020 football season, in the fiscal year ended on June 30, 2021, together with the share of costs of FIGC registered personnel. This postponement affects the comparability of certain revenue and cost items of the fiscal year ended on June 30, 2022 with the previous fiscal year. In addition, with reference to the cost of FIGC registered personnel of the First Team, in the fiscal year ended on June 30, 2021 also included part of the cost related to the 2019/2020 season, for Euro 18,120 thousand, deferred to June 30, 2020, following the spread of the Covid-19 pandemic in February 2020 and the concomitant restrictive measures implemented by Institutions and Federal Authorities, aimed at containing it, including the suspension of competitive activities, which took place in March 2020, and the subsequent resumption of the same, which took place in June 2020, with the end of the 2019/2020 football season on August 31, 2020.

PRODUCTION VALUE

Revenue from sales and services

Mainly refers to the revenues received from matches and seasons tickets, or income from the sale of tickets and season tickets to attend the matches of the First Team and the Youth Teams membership in the Inter Club, as well as income related to concessions of advertising space, from the thematic channel "Inter Tv" and from the marketing of the television library.

Revenue can be broken-down as follows:

	12 months as of June 30, 2022	12 months as of June 30, 2021
Euro thousand		
Revenue from matches:		
- Championship matches	22.630	-
- Coppa Italia matches	3.826	-
- International Cup matches	8.009	-
- Tournaments and friendly matches	20	-
- Revenues from away matches	1.600	-
- Season Tickets	1.570	
Other Revenue:		
- Inter Club/Member Fan Cards	2.191	2.182
- Sponsorship EU in house	16.125	14.149
- Sponsorship Regional	15.645	38.161
- Sponsorship Global	-	3.782
- Rai-Infront-CSB-Dazn Library	6.823	10.423
- Inter TV	2.457	5.445
- Others	454	316
Total	81.350	74.458

Net of revenues from matches, which is not comparable with the previous year due to the above mentioned, "Revenues from sales and services" showed a decrease, mainly due to:

 the significant decrease in sponsorship revenues for Euro 24,322, mainly attributable to the item "Sponsorship Regional", following the lack of revenues deriving from the contract with iMedia, terminated in advance as of June 30, 2021, as well as the reduction in fees related to the Naming Rights contract. For further details, reference should be made to the section "Other information - Sponsorship agreements" above;

- (ii) the reduction in revenues "Archivio Rai-Infron-CBS-Dazn" for Euro 2,950 thousand following the natural termination of the contract with Infront Italy on June 30, 2021, which provided for annual fees of Euro 10 million for the marketing of the television archive, of training images, interviews, press conferences and media packages. At the same time the Company stipulates for the 2021/2022, 2022/2023 and 2023/2024 sports seasons a new contract for the licensing of archive images and access, filming and broadcasting rights, excluding certain territories (Italy, Vatican City, San Marino, United States, Middle East and North Africa) for a total annual amount of Euro 1,250 thousand for each of the aforementioned sports seasons. This reduction is partially offset mainly by trading with Dazn Limited, the global broadcaster of the live streaming market, for the 2021/2022, 2022/2023 and 2023/2024 sports seasons, on digitisation and marketing in certain territories (Italy, Vatican City and San Marino), the archive contents of the matches played by the First Team (male and female) of Serie A and Inter TV for an annual fee of Euro 5 million. For further details, please refer to the section "More information Agreements with the Rai Group, Infront and Dazn";
- (iii) the decrease of Euro 2,989 thousand in Inter TV revenues, mainly attributable to the natural extinction on June 30, 2021 - and the simultaneous non-renewal - of the contract for the granting of the broadcasting rights in China with Great Mercury Limited

The aforementioned effects were more than compensated by the recovery of revenue from home matches and season tickets, following the reopening of the stadiums to the public for the 2021/2022 football season, albeit with limited capacity; in fact, it should be recalled that the previous 2020/2021 football season was entirely played behind closed doors or with limited access up to a maximum of 1,000 spectators per match.

Reference should be made to the Report on Operations for a description of the trend in revenues for the fiscal year.

Capitalization of youth programme costs

The capitalization of youth programme costs related to the fiscal year refer to the following structural and operating costs referring and attributable to the training camp:

	12 months as of June 30, 2022	12 months as of June 30, 2021
Euro thousand		
Coaches compensation and bonuses	4.277	4.533
Inps – Enpals – Inail cost for coaches	1.205	1.203
Coaches and of career allowances	247	239
Health care costs	22	2
Retirement management	646	564
Sport Facilities	2.371	2.167
Food and accommodation for matches	131	142
Accident and asset protection insurance		
Total	8.900	8.850

The amount capitalised is consistent with the new capitalisation requirements as described above in the "Intangible assets" and in the accounting principles. It should be noted that on November 12, 2021, the FIGC and Co.Vi.Soc. published the 2021 edition of the "Raccomandazioni Contabili FIGC", applicable, at the latest, from the fiscal year following the one in progress at December 31, 2021 (and therefore for the Company this means from July 1, 2022). These new recommendations provide, inter alia, for the inadmissibility of the capitalization of youth costs. The Group intends to apply these new recommendations as of July 1, 2022.

Other revenue and income

Sponsorship, miscellaneous income and other revenue Specifically, such income consists of the following:

	12 months as of June 30, 2022	12 months as of June 30, 2021
Euro thousand		
Operating grants and contributions	16.613	8.524
Sponsorships	43.497	41.605
Advertising income	4.039	7
Commercial income and royalties	6.472	4.210
Income from the sale of television rights:		
- television revenues	84.239	125.413
- television income from UEFA competitions	62.304	64.324
Revenue from temporary loans of players	1.246	5.061
Gains on sale of player registrations	105.232	2.288
Other income from player management	2.469	1.006
Sundry revenues and income	22.999	28.966
Total	349.111	281.404

Grants and Contributions of Euro 16,337 thousand include contributions which will be paid by the Lega di Serie A with reference to collective revenues excluding audiovisual rights, collective revenues excluding audiovisual rights, as well as the prizes of the Coppa Italia and the Supercoppa italiana, increasing compared to the previous fiscal year competitions.

Revenues from "Sponsorships" mainly refer to fixed and variable fees paid by Socios.com (Official Sponsor) - which replaced Pirelli from the 2021/2022 football season - by Nike (Technical Sponsor), by Lenovo (Jersey Sponsor - back) and Zytara (Jersey Sponsor - sleeves). These fees also include performance bonuses, if any, accrued in the fiscal year ended on June 30, 2022 in relation to the sports results achieved by the Parent Company's First Team. With reference to the comparative fiscal year ended on June 30, 2021, on the other hand, this amount included bonuses for qualifying for the 2019/2020 and 2020/2021 UEFA Champions League, for the sporting results achieved in the final phase of the 2019/2020 UEFA Europa League, following the conclusion of the 2019/2020 football season on August 31, 2020, as well as for winning the 2020/2021 Serie A championship.

"Advertising" mainly include revenues from promotional-advertising activities in corporate hospitality season tickets and show a significant increase compared to the comparative fiscal year in the amount of Euro 4,032 thousand, an effect deriving from the reopening of stadiums to the public for the 2021/2022 football season, as better described above in the commentary on the section match and season ticket revenues.

"Commercial income and royalties", amounting to Euro 6,472 thousand, refer to revenues related to merchandising and licensing activities, activities that as of November 1, 2019 have been internalised and managed directly by the Parent Company.

Income from the sale of television rights of home matches of the Serie A, equal to Euro 84,239 thousand, showed a decrease compared to the previous fiscal year equal to Euro 41,174 thousand, manily attributable to the recognition of part of the income from television rights of the 2019/2020 football season in the 2020/2021 fiscal year, for Euro 24,913 thousand. It should be remembered in fact that, following the spread of the Covid-19 pandemic in February 2020 and the concomitant restrictive measures put in place by Institutions and Federal Authorities, aimed at containing it, the 2019/20 football season was first suspended in March 2020, and then proceeded with the continuation of the championship and competitive activities only from June 2020 until August 2020.

Television revenues from UEFA competitions, amounting to Euro 62,304 thousand at June 30, 2022, are substantially in line with those of the same previous comparative period, in relation to the recognition of part of the television rights revenues of the 2019/2020 football season in the 2020/2021 fiscal year, for Euro 15,856 thousand, similarly to what has been stated in the previous paragraph in relation to the item income from the licensing of broadcasting rights of Serie A championship matches; this effect is partially offset by the higher revenues of the 2021/2022 fiscal year related to the First Team reaching the round of 16th of the UEFA Champions League.

Revenues from temporary loans of players is mainly related to players Lorenzo Pirola, Michele Di Gregorio and Valentino Lazaro.

Gains on sale of players registration during the fiscal year are listed below, with an indication of the name of the football player and the transferee club:

Football Player	Transferor	Net Book Value	Value of the transfer	Actualization	Gains

The net increase in specific technical costs is mainly tied to the item "Transfer market agent fees", following higher costs relative to FIFA agents debited to the Income Statement during the fiscal year as a result of the transfers that occurred during the summer transfer campaign in July and August 2021, in addition to the fees accrued during the fiscal year and due to FIFA agents for the constant registration of certain First Team players.

The costs relative to the "Ticketing service, ground admission and security control" increased significantly by Euro 3,284 thousand as a result of the resumption of competitive competitions, albeit with limited capacity, compared to the same comparative period where, following government and federal decisions in response to the spread of the Covid-19 pandemic, they were held behind closed doors or with access limited to 1,000 spectators.

The costs for services also include fees to the Statutory Auditors in the amount of Euro 175 thousand and to the Independent Auditing Firm in the amount of Euro 150 thousand.

Total personnel costs		248.434	Star Star Star	261.578	

Personnel costs at June 30, 2022, equal to Euro 248,434 thousand, recorded a decrease of Euro 13,144 thousand, mainly attributable to the fact that, as previously illustrated in the section "Measurement criteria and accounting standards - Costs and revenues", in the fiscal year ended on June 30, 2021, the cost of registered personnel of the First Team also included part of the cost relating to the 2019/2020 season, for 18,120 thousand, deferred to June 30, 2020, following the spread of the Covid-19 pandemic in February 2020 and the concomitant restrictive measures put in place by Institutions and Federal Authorities, aimed at containing it, including the suspension of competitive activities in March 2020 and its subsequent resumption in June 2020, with the end of the 2019/2020 football season on August 31, 2020.

Personnel costs also include the amount of the company cost set aside for bonuses paid to Group employees for the sports results achieved by the First Team of F.C. Internazionale in the 2021/2022 season, in addition to the 2022 PMP.

With respect to registered employees, the cost is set forth in detail as follows:

	12 months as of June 30, 2022	12 months as of June 30, 2021
Euro thousand		
Contractual remuneration players	152.518	153.310

Performance bonuses	29.520	26.083
Image rights	2.452	2.980
	197.542	215.763

The decrease in players', coaches' and technical staff's contractual remuneration is mainly attributable to what was previously stated in terms of the economic comparability of the same cost for the fiscal year ended on June 30, 2022 and June 30, 2021, respectively.

During the fiscal year, performance bonuses accrued for Euro 29,520 thousand, as provided for in the contract, mainly referring to constant employment, and to the victories of the 2021/222 Coppa Italia and Supercoppa Italiana. Image rights amounting to Euro 2,452 thousand, are entirely relative to First Team players.

The difference of Euro 7 thousand between the provision for severance indemnity reported above in the table and the one reported above as a comment on the movements of the relative fund, refers to the allocation on the 2021/2022 Coppa Italia victory bonuses just commented above and paid in the September 2022, whose counterpart in the Balance Sheet is included in the item "Other payables - Payables to employees and contractors for remuneration accrued but not yet paid".

The average personnel employed by the Company can be broken-down as follows:

- Euro 691 thousand (Euro 703 thousand at June 30, 2021) for the portion of depreciation related to other property, plant and equipment.

Impairment of assets

The line item, amounting to Euro 16,556 thousand, mainly includes (i) the write-downs of Christian Eriksen, whose economic contract was terminated during December 2021 following a serious injury during the European Championship in June 2021, inhibiting the footballer from being able to obtain the sporting fitness to the competitive activity in Italy and (ii) the write-down of the players Arturo Vidal and Alexis Sanchez, whose contracts were terminated in July and August 2022, respectively.

Write-down of doubtful account receivables included current assets

The provision for the period of Euro 25,803 thousand prudentially reflects the updated assessment of the risk of uncollectability of specific credit positions. For further information on the movements during the fiscal year with regard to the item in question, please refer to the note to the "Bad debt provision".

- Sundry costs	2.402	335

Sundry match organization costs refer to various costs related to the holding of matches. The increase in the fiscal year is attributable to higher costs incurred for the organisation of matches as a result of the home matches of the 2021/2022 football season being played at open doors, albeit with a limited capacity, compared to the matches played at closed doors or with access limited to 1,000 spectators in the 2020/2021 season.

The losses on the long-term sale player registration rights recorded during the fiscal year are mainly related to the sale of footballers Filippo Annibale, Flavio Sulejmani and Valerio Maffi.

The other expenses from player management mainly include the solidarity contributions accrued in the period relating to market operations with international clubs (transfer of football players Romelu Lukaku to Chelsea and Achraf Hakimi to Paris Saint Germain).

The item "Transactions and compensation" refers to the penalty paid due to the renunciation of the "Florida Cup", following the concerns related to the continuation of the Covid-19 pandemic, a tour that would have seen the First Team engaged against Arsenal on July 25, 2021 and against Everton or, alternatively, against the Millonarios on July 28, 2021.

Costs of previous years for Euro 1,217 thousand mainly refer to ordinary contingent liabilities.

Financial income and expenses

Financial income

Other financial income amount to Euro 955 thousand and mainly refer to interest income relating to the actualization of receivables made in the fiscal year as required by the changes, additions and changes introduced to the civil code by the D.lgs. 139/2015 described in "Payables to specific sector institutions".

Interest expenses "On payables to banks" amounted to Euro 1,491 thousand at June 30, 2022 (Euro 2,509 thousand at June 30, 2021), and mainly related to interest expenses calculated on the utilisation of the revolving financing line, calculated up to the date of its repayment on February 9, 2022, as better described in the section "Bank loan".

The increase compared to the previous fiscal year of the accessory charges on loans is mainly connected to the debiting to the Income Statement of the residual value, equal to Euro 5,151 thousand, relative to the accessory charges capitalised in relation to the previous Bond Loan, repaid in advance during the fiscal year following the issue of the New Bond Loan.

Interest expense on "Bond Loan" calculated according to the amortised cost criterion amounted to Euro 25,387 thousand and increased by Euro 3,124 thousand compared to the same comparative period of reference, in relation to the new conditions related to the New Bond Loan subscribed. More details on this item are provided in the comments on "Payables – Bond Loan".

Financial expenses "on payables to parent companies", amounting to Euro 4,800 thousand at June 30, 2022 (Euro 5,476 thousand at June 30, 2021), refer to interest on shareholder loans, as better described in the section "Shareholders loan".

Charges on factoring refer to the costs applied by the factor following the sale without recourse, which took place during the fiscal year, of receivables arising from the sale of the players Romelu Lukaku to Chelsea and Achraf Hakimi to Paris Saint Germain.

Lastly, charges on actualization amount to Euro 4,924 thousand and relate to the discounting of payables carried out during the year as required by the amendments, additions and novelties introduced to the rules of the Italian Civil Code by Legislative Decree 139/2015 described in the section "Payables and receivables to/from football clubs", the decrease in which is mainly attributable to the dynamics of the transfer campaign, mainly characterised by purchases whose consideration is deferred over several years.

Value adjustments to financial assets

Revaluation/Impairment of investments

Revaluations of investments amount to Euro 521 (impairment of Euro 1,973 thousand as of June 30, 2021) and related to the reinstatement of the value of the equity investment in M-I Stadio S.r.I., which, following the positive financial result highlighted in the present fiscal year, had a Net Equity of Euro 3,696 thousand as of June 30, 2022.

Income taxes

Starting from fiscal year 2014/2015, the Group companies exercised the option to adhere to the Tax Consolidation set forth in Articles 117-129 of D.P.R. 917/86 as consolidated parties, with FC Inter as the parent company.

Due to the effect of the joint fiscal year of such option by the Parent Company and its subsidiaries, the former as the consolidating company, it is noted that the relative option was exercised within 16 December 2013 for the three-year period 2013/2016, renewed for other three years (2016/2019 e 2019/2022).

The allocation for the fiscal year income taxes for the consolidated companies was made on the basis of the presumable tax burden according to outstanding law.

Taxes are calculated as follows:

- current taxes in the amount of Euro 3,747 thousand;
- pre-paid taxes in the amount of Euro 414 thousand;
- deferred tax assets in the amount of Euro 121 thousand.

As a result, income taxes also include the income and expenses resulting to the tax consolidation. The net income of F.C. International Milan S.p.A. from the tax consolidation, it amounted to Euro 4,137 thousand, while the tax burden transferred by Inter Media and Communication S.p.A. it is equal to Euro 4,039 thousand - divided into Euro 4,039 thousand as income related to the portion absorbable from the taxable income recognized by the subsidiary and Euro 0 as a charge related to the excess of Rol produced on interest payable that can be used and transferred to the Tax Consolidation as per specific regulation in the context of existing consolidation agreements – and the transferred tax liability of Inter Brand and Inter Futura amounted to Euro 98 thousand and Euro 0, respectively.

The amount of tax losses pertaining to F.C. Internazionale, not valued for prudence, amounts to Euro 427,551 thousand, in addition to tax losses of Euro 495,281 thousand, also not valued for prudence, which can only be used within the tax consolidation.

Litigation and tax assessments

The Parent Company is involved with various tax litigation, mainly related to two cases that are specific to the football industry.

One case regards the relevancy for purposes of IRAP of capital gains from the transfer of football players. The Tax Authority ("Agenzia delle Entrate") contested the exclusion from the IRAP taxable base of capital gains from the transfer of football players, since the Parent Company considered this to be extraordinary and therefore not subject to IRAP taxation (the "Capital Gains" case).

The second case instead regards the relationships between the Parent Company, its registered personnel and sports agents. Specifically, the Tax Authority contested that the costs for services provided by "Sports Agents" are incurred by the Company in the primary interests of the football players, and therefore are remuneration in kind paid to the football players (a fringe benefit). Therefore, with reference to such costs the failure to subject them to withholding tax, and their non-deductibility for Value Added Tax and their non-deductibility for purposes of IRAP and IRES was contested ("Sports Agents" case).

In relation to the "Capital Gains" case, the Parent Company has received various notices of tax assessments starting from fiscal year 2001/2002, specifically:

- with reference to the notices of assessment received for the 2001/2002, 2002/2003 and 2003/2004 financial years, the Parent Company appealed at various levels of judgment, in which favourable sentences (generally at first instance) alternated with contrary sentences. The appeals relating to the aforementioned assessments during 2019 were all cashed. The Court of Cassation (i) rejected the appeals filed by the Revenue Agency, thus recognizing that penalties are not applicable because at the time of the facts there were jurisprudential disagreements on the point, as pointed out in the ruling of the Council of State of 11-12-2012 (Cass.Civ. 2015 n. 24588) and (ii) rejected the appeals filed by the Company, thus recognizing the taxability of Capital Gains for IRAP purposes since, as clarified by the above mentioned Council of State ruling on the legitimacy, the transfer of a soccer player is an act that falls within the management of a soccer team, representing an event related to the ordinary activity of the club, so that the capital gains from the sale of fixed assets, when the disposal of the asset constitutes an ordinary event of the company's management, are part of the income and expenses of the accessory "ordinary" management. In November 2019, the Parent Company received from the Agenzia delle Entrate a payment slip of Euro 1,475 thousand, relating to the tax period 2001 and falling within the case of "Capital gains", following a ruling issued by the Court of Cassation; the amount due was paid in full in January 2020.
- with respect to fiscal year 2004/2005, the assessment received only resulted in the variation of the IRAP taxable income base, which remains negative, and therefore no increased tax was imposed on the Parent Company.
- with reference to fiscal years 2005/2006 and 2006/2007, on 12 December 2011 the Parent Company received two notices of tax assessments and filed an appeal in front of the Provincial Tax Commission of Milan. It is noted that the Tax Authority included comments with respect to the "Sports Agents" in the above notices of tax assessment, just with respect to the IRAP component. The Parent Company, in accordance with legislation on appeals, paid the amount of Euro 654 thousand in fiscal year 2012/2013, which was entirely charged to the Income Statement. On 13 March 2014, the Parent Company received notice from the Provincial Tax Commission of Milan related to the judgment in which the appeal was accepted for both notices of tax assessment mentioned, both with reference to the "Capital Gains" case as well as with reference to the "Sports Agents" case. Consequently, during the month of July 2014, the Parent Company received reimbursement of what it had paid to be able to file the first level appeal. Such amount,

from a prudential standpoint, was recognized in the financial statements in the line item "miscellaneous payables", while waiting for the final conclusion of the litigation in the residual levels of judgment. In November 2015, the Parent Company received a notice of payment in the amount of Euro 2,095 thousand related to the above mentioned notices of tax assessments for fiscal years 2005/2006 and 2006/2007 consequent to the unfavourable judgment on appeal. The above tax notice, which will be paid in accordance with an agreed-upon instalment plan, resulted in the use of the "Provision for risks and charges" in the amount of Euro 1,441 thousand, as better described in the paragraph "Provisions for risk and charges", while for the remaining portion already entered into debt, during the previous year has been pre-paid. For completeness it is noted that the Parent Company has appealed in the month of March 2016.

For completeness of information, it is noted that, as is known, in relation to the "Capital Gains" case that was just described, in the month of December 2012 the State Council, upon the request for an opinion by the Ministry of the Economy and Finance, gave its favourable opinion for the taxation of the capital gains for the purposes of IRAP.

The Parent Company has not received further notices of tax assessments with reference to such cases and the years that are still open from a tax standpoint.

Even with reference to the "Sports Agents" case, the Parent Company has received various notices of tax assessments starting from fiscal year 2004-2005, whose description is relevant for purposes of the information regarding these consolidated financial statements, specifically:

• with reference to fiscal years 2004-2005, 2005-2006 and 2006-2007, in fiscal year 2011/2012 the Parent Company agreed to settle the tax assessments received related to the above fiscal years that contested non-deductible costs for purposes of IRAP in relation to the 2004-2005 fiscal year, as well as more VAT and withholding tax for the years 2005, 2006 and 2007. The overall cost, inclusive of ancillary penalties and interest, was approximately Euro 7.7 million;

• with reference to fiscal years 2007/2008, 2008/2009, 2009/2010, 2010/2011, 2011/2012 and 2012/2013, in March 2018 the Parent Company received a tax transaction proposal from the Tax Authority ("Agenzia delle Entrate") in order to avoid the continuation of situations of tax litigation; the Parent Company subscribed the aforementioned transaction which provided an outcome in line with that recorded under the item "Provisions for risks and charges" which took place entirely in the current fiscal year. Specifically, with reference to the settlement agreement relating to the "Sports Agents" case, these were carried out with a view to cost / benefit, assessing on the one hand the residual duration of disputes which, more likely, would have been prolonged. Up to the third degree with related consultancy costs, and on the other hand the positive effects deriving from the elimination of a tax slope. However, the Management of the Group believes, with the support of its legal counsel, that the choice of settlement definition is not linked to legal assessments and that therefore to date the potential liability in relation to the tax-cleared financial years and the current litigation, both still opposable in any degree of judgment as well as at the moment not quantifiable;

• with reference to 2012/13 and 2013/14 fiscal years, in December 2018 the Company received from the Tax Authority the findings of the assessments relating to the aforementioned financial years that contested non-deductible costs for IRAP purposes in relation to the financial year 2012/2013, higher withholding tax not applied as a withholding agent in relation to the financial year 2012/2013 as well as higher VAT tax in relation to the financial years 2012/2013 and 2013/2014. The total charge including ancillary sanctions and interest amounts to approximately Euro 0.25 million, providing for a disbursement in February and April 2019 through the use of Provisions for risks and charges of previous years. From a financial point of view, in order to raise new financial resources, in July 2022 the Parent Company reached an agreement with Generali Italia S.p.A., for the extension of the insurance surety policy for an additional Euro 19.1 million for a total of Euro 45 million to guarantee the debit balances of the Company's transfer account in favour of the Lega Nazionale Professionisti Serie A, as provided for by the regulations issued by the FIGC on the subject of players' registration and transfers (in particular, from FIGC Official Notice No. 251/A, published on May 19, 2022).

From a commercial point of view, in July the Parent Company launched an e-commerce platform, intended as an online shop operating on a global scale that allows professional customers and consumers to purchase the Company's products, with the aim of maximising revenues and up selling and cross selling methods with direct management and full control of the entire process from the development of product lines to their sale.

The crisis in the crypto-currency sector, which worsened during the second quarter of the year 2022, has also impacted and is still impacting the Group's cash flows, and, specifically, the subsidiary Inter Media, especially with reference to the sponsorship agreement signed with Zytara Labs - Digitalbits, as better described in the section "Other information - Sponsorship agreements". In fact, at the date of preparation of these financial statements, invoices relating to performance bonuses accrued as a result of the sports results achieved by the Parent Company's First Team in the 2021/2022 football season, amounting to Euro 1.6 million (entirely written off already at June 30, 2022), as well as the first instalment for the 2022/2023 football season under the title of Jersey Sponsor - Main for Euro 8 million (entirely covered at June 30, 2022 by deferred income recognised for a similar amount in the liabilities of the Balance Sheet), were due and not yet collected. In addition to the above, to date the counterparty has not presented the project, contractually envisaged, regarding the integration of these financial statements, the F.C. Internazionale Milano Group's digital ecosystem, which has just been restructured. As of the date of preparation of these financial statements, the F.C. Internazionale Group is working with the counterparty to find a solution, although it has preliminarily removed the logos of the counterparty from the site, billboards and jerseys of the youth and women's sector teams, while retaining, at the moment, the presence of the sponsor on the jersey of the First Team.

On July 7, 2022, the Parent Company received a writ of summons from China Construction Bank (Asia) Corporation Limited ("CCB"), whereby CCB brought a revocatory action before the Civil Court of Milan against the Parent Company's shareholders' resolution of February 18, 2019, regarding Directors' emoluments, in the context of broader actions to protect its economic interests in China. The Parent Company, as a party involved in the action brought by CCB, intends to instruct its lawyers to carry out an in-depth analysis of the case and of the case law on ordinary revocatory actions and protect its reasons in the lawsuit brought by CCB, whose first hearing, initially set for November 14, 2022, was postponed to March 8, 2023.

Lastly, on August 10, 2022, Inter received a claim for Euro 30 million raised by Sporting Clube de Portugal - Futebol ("Sporting CP") in relation to the definitive transfer of the player Joao Mario to Benfica for failure to activate the preemption clause in favour of Sporting CP in the event of the player's transfer to any other club participating in the Portuguese championship. The Company, while considering itself not responsible for contractual violations, is examining with its lawyers the counterparty's objections and will take action in the appropriate venues to protect its interests.

At the end of August 2022, the Settlement Agreement with UEFA was signed, for details of which please refer to the section "Financial Fair Play".

Discipline on transparency of public grants and subsidies

The entry into force of Law 124/2017, Article 1 (125) to (129), subsequently supplemented by the "Security" Decree Law (No. 113/2018) and the "Simplification" Decree Law (No. 135/2018) has introduced a number of advertising and transparency obligations to a plurality of individuals who have economic relations with the Public Administrations. Article 1, paragraph 125 provides for the publication of information on grants, contributions, remunerated engagements and, in any case, economic advantages received in the period of more than Euro 10 thousand. Companies fulfil their obligation by publishing this information in the Notes of the financial statements and in the Notes of the consolidated financial statements, where it exists.

In accordance with this obligation, it is indicated below, adopting the cash criterion of subsides, contributions, remunerated engagements and, in any case, economic advantages of any kind received in the period of more than Euro 10 thousand. During the fiscal year ended on June 30, 2022, the Company did not receive public grants and subsidies to be reported.

This Consolidated Financial Statements, consisting of the Balance Sheet, Income Statement, Cash Flow and Explanatory Notes, represent in a truthful and accurate manner the financial and economic position as well as the economic result of the fiscal year and correspond to the accounting records.

company of F.C. Internazionale Milano S.p.A., where adequate liquidity is available and which has already expressed its formal commitment to provide financial support to the Group for the foreseeable future.

Our opinion is not qualified in relation to this aspect.

Responsibilities of the Directors and the Board of Statutory Auditors for the Consolidated Financial Statements

The Directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance the Italian law governing financial statements and, within the terms established by law, for such internal control as the Directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they have identified the existence of the conditions for the liquidation of the parent company F.C. Internazionale Milano S.p.A. or the termination of the business or have no realistic alternatives to such choices.

The Board of Statutory Auditors is responsible for overseeing, within the terms established by law, the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing (ISA Italia) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with International Standards on Auditing (ISA Italia), we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control;

Deloitte.

- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors;
- conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation;
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance, identified at an appropriate level as required by ISA Italia, regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
